Mayor and Council

Attached is your agenda for Monday evening. I am sorry I will not be able to attend.

1. Jerry has met with Omaha Towing and Recovery regarding the possibility of then taking over the tow contract. Attached is a copy of their bid and the proposed contract. I am giving you a copy of the rates that were being charged.

2. We have been working with Mark Fisher, WIDA, and Iowa Economic Development to create a package that will entice Mark to rebuild General Manufacturing back in Carter Lake. If he builds here it will be on his existing property. Please keep in mind – there is a zoning issue on that property and a solution must be found before he starts construction. Mark is ready to start rebuilding now. He wants to be in a permanent facility by the end of 2014. I have prepared some calculations for tax abatements on his proposal.

   I have assumed that the new building will be valued at $700,000. There will be a 10% rollback by the time a new building would hit the taxes.
   A 3 year abatement would save him $74,913 and a 10 year graduated abatement would save him $109,872.
   Mark had originally requested a 6 year – 100% abatement. We do not have provisions for that.
   Joe – PLEASE review my assumptions and calculations.
   I was unable to locate the original forms for the commercial abatement however, Lisa found me an completed form that shows the graduated tax that was approved.
   There is also a comparison and some information on taxes in Iowa vs. Nebraska.

3. Regarding storm water – I wish you the best of luck at coming up with something that will make everyone happy.
   Attached is a copy of our current storm water ordinances. A list of all of our properties and the fee we are charging them. A copy of the letter we sent in August 12th to every resident regarding the fees and advising them of the public hearing.
   I sent you information from the City of West Branch, but I am sending it again.
   I am also giving you a copy of the handout that was received Monday night.

I will be available on my cell if it is needed. 402-740-3808.

Proposed Contract

13.30 The Contractor shall perform the services, duties and obligations as set forth in this Agreement in exchange for the following remuneration:

	TOWING (Charges and Fees Including Debris Cleaning)	DAILY STORAGE

CONTRACT BETWEEN
CITY OF CARTER LAKE
AND Omaha Towing and Recovery (OTR)

THIS IS AN AGREEMENT between the City of Carter Lake (hereinafter referred to as City), 950 Locust St., Carter Lake, Iowa 51510 and Omaha Towing and Recovery (hereinafter referred to as Contractor), for the towing and storing of vehicles for the City of Carter Lake under the following terms and conditions:

1.00 SCOPE OF WORK:

1.10 The Contractor shall furnish all personnel, supervision, materials, equipment and secured storage service in accordance with the provisions of this Contract Document, the statutes of the State of Iowa and the ordinances of the City of Carter Lake, Iowa.

1.20 Nothing contained in these terms and conditions shall be construed as creating any contractual relationship between any subcontractor and the City. The Contractor shall be fully responsible to the City for the acts and omissions of any and all subcontractors.

2.00 SERVICES PROVIDED:

2.10 Contractor shall tow in and store at his secured storage facility, any vehicle taken into custody by any officer of the Carter Lake Police Department, as requested by any member of the Carter Lake Police Department and to impound same under the direction of the Carter Lake Police Department.

2.20 Contractor shall provide towing service on a twenty-four (24) hour, seven day a week basis.

2.30 Contractor shall have qualified trained towing personnel on duty and available for service on a twenty-four (24) hour basis. Contractor shall provide personnel in attendance at the secured storage yard locations and shall provide Police access to said storage yard locations for purposes of investigation on a twenty-four (24) hour basis. Contractor shall maintain reasonable daily business hours, five days a week, to enable the public to obtain the release of vehicles towed to or stored within the Contractor's storage yards.

2.40 Contractor shall provide a weekly report to the Chief of the Carter Lake Police Department or his designees of the vehicles towed in, and/or held in storage under the terms of the Contract. Contractor shall maintain written books of account and records as may be prescribed by the Chief of Police in order to accurately account for all vehicles, transactions, funds and money related by the Contract. Contractor shall maintain these records of services provided to the City for a period of three years.

2.50 Contractor shall provide timely notices in accordance with Iowa Code 321.89 (3) (a) (2003) to all persons who have had their vehicles towed.

2.60 Contractor shall provide towing services for city passenger vehicles, evidentiary vehicles, and police vehicles free of charge, up to four (4) vehicles per year, to the City of Carter Lake.

2.70 Contractor shall be required to remove or clean up all debris caused by an accident in which said Contractor has been notified by a member of the Carter Lake Police Department for services needed in accordance with this Contract.

2.80 Contractor's secured storage yards shall be the site of periodic public auctions conducted pursuant to state law. The dates and hours of such public auctions shall be designated by the Police Chief, or his designee. Contractor shall provide assistance in this activity, including, but not limited to:

(a) Aligning vehicles to facilitate the auction.
(b) Marking, numbering or otherwise identifying the vehicles subject to auction.
(c) Allowing inspection of vehicles prior to sale at such times designated by the Chief of Police or his designee.

2.90 RESPONSE TIME:

The maximum response time for an initial call for service shall be thirty (30) minutes. Contractor shall guarantee a response time of sixty (60) minutes for calls for service requiring the concurrent use of two (2) wreckers.

3.00 NO TOW RUN:

Contractor shall provide a "no tow run" service fee for which they will charge the lesser fee of $ 25.00 for calls received by the Contractor Monday through Friday from 8 a.m. to 5 p.m. Contractor may charge his regular fee of $ 176.00 for calls received after normal business hours. A "no tow run" occurs when the contractor is called to a location by the Police and prior to hookup, is informed by the Police that a tow will not be required. The no tow fee shall be paid by the vehicle owner. The contractor shall be responsible for collecting no tow fees from the vehicle owner.

4.00 Contractor shall only release personal property contained in vehicles impounded at the direction of the Carter Lake Police Department to parties authorized by said department to receive said property prior to the release of the impounded vehicle. Written permission may be provided by fax.

5.00 SECURED STORAGE YARDS AND BUILDINGS:

5.10 Contractor shall provide an enclosed, secure storage space for all vehicles held by the Carter Lake Police Department in Carter Lake or within 5 miles of Carter Lake.

5.20 Contractor shall provide the appropriate signage for the lot. Signage shall make lot readily noticeable by the public as tow contractor for City of Carter Lake.

5.30 Storage areas shall be in compliance with all applicable codes by the effective date of said contract.

5.40 The Contractor designates the following storage facilities for use by the City of Carter Lake.

Address	Type	Capacity in Passenger Car Spaces
3032 Sprague St. Omaha, NE 68111	vehicle storage	50 +

5.50 The above-described facilities shall be available for inspection by the City.

6.00 EQUIPMENT:

6.10 At the date that the contract becomes effective, the Contractor must have the following equipment, which he shall verify ownership of or show proof of a long term lease extending through the completion date of this contract:

(a) one (1) large wrecker (24.000 GVW) - Have 1 ton wrecker, will sub out oversized equipment to Neff towing or other local tow company excluding Arrow Towing.
(b) one (1) flatbed truck

7.00 OFFICE:

Contractor shall maintain an office or such other facility through which he may be contacted by telephone on a twenty-four (24) hour basis.

8.00 POINT OF CONTACT:

All dealings, contacts, or notices required by the Contract between the Contractor and the City shall be directed by the Contractor to the City of Carter Lake c/o City Clerk, 950 Locust St., Carter Lake, Iowa 51510 and by the City to the Contractor. 3032 Sprague St. Omaha 68111. Any change in agent, address and telephone number shall be reported by the parties in writing within three (3) days of any such change.

9.00 TERMMINATION OR CANCELLATION OF CONTRACT:

The City reserves the right to cancel or terminate the Contract without cause and at its sole discretion by (30) days written notice to the Contractor. Contractor shall have forty-five (45) days from the 30th day of notice that the Contractor may collect as consideration for the towing and storage of notice period to completely dispose of all the vehicles he has towed and stored in the City's storage facility. No other fees or payments shall be due to the Contractor.

10.00 The services identified in this Contract shall commence at 12:00 noon, Central Standard Time, on _____ and shall terminate at 12:00 noon, Central Standard Time, on _____ unless otherwise specified in the form of Contract, or unless the same shall be sooner terminated in accordance with any other term of the Contact.

10.10 The above-mentioned term of this Agreement may be renewed indefinitely on a yearly basis at the sole option of the City.

10.20 In the event of termination or cancellation, under the terms of the Contract, the Contractor shall keep and store any and all vehicles which shall have been towed onto or upon his premises under the terms of the Agreement until such time as said vehicles may be or shall have been released to the owners thereof or otherwise disposed of as provided by law. Contractor shall fully and completely perform all the covenants and conditions imposed upon him by the terms of this Contract with respect to such vehicles, until such times as they have been disposed of as referred to herein.

11.00 INSURANCE/INDEMNIFICATION

The Contractor shall carry as a minimum the insurance coverage listed below, and shall furnish adequate proof thereof in the form of Certificates of Insurance to the City listing the City as an additional insured as follows:

COVERAGE	LIMITS OF LIABILITY
Garage Liability with Garage Keeper's Legal liability	Garage Liability to be in the amount of $500,000 00 combined single limit liability. Garage keeper's legal liability to be at a Minimum of $25,000 00 with a deductible No greater for the contract than $250 00
Worker's Compensation	Statutory limits must include broad form All states endorsement

All insurance shall be by insurers acceptable to the City and, before commencement of work hereunder, Contractor agrees to furnish the City with Certificates of Insurance or evidence satisfactory to the City to the effect that such insurance has been procured and is still in force. In the event that this contract is extended, the Contractor will provide the City with proof of liability insurance once every twelve (12) month period. Said policies shall require a thirty (30) day notice to the City prior to cancellation.

Contractor agrees to procure garage keepers insurance coverage prior to the execution of this contract.

Contractor shall further indemnify, agree and guarantee to defend and save the City harmless from any and all claims for damages, attorney fees and costs, arising from Contractors acts or omissions, including but not limited to acts or omissions alleged to have been sustained by the owners of vehicles impounded under the provisions of this Contract, and from the claims of any other person or persons for property claimed to have been damaged or lost by reason of the impoundment of any such vehicle, while the same are in possession of an under the control of the Contractor.

12.00 TERMINATION OR CANCELLATION OF CONTRACT:
The City reserves the right to cancel or terminate the Contract without cause and at its sole discretion by thirty (30) days written notice to the Contractor. Contractor shall have forty-five (45) days from the 30th day of notice that The Contractor may collect as consideration for the towing and storage of notice period to completely dispose of all the vehicles he has towed and stored in the City's storage facility. No other fees or payments shall be due contractor.

13.00 CONSIDERATION AND PAYMENT:

13.10 The Contractor may collect as consideration for the towing and storage of vehicles under the terms and conditions of the Contract such towing charges and storage fees as are provided in subsection 13.30 below. Said charges are to be paid by the owner, or his authorized representative, when said vehicle is authorized to be released by the City of Carter Lake Police Department or shall be paid by the City in the event such vehicle is not claimed by the owner or his authorized representative and is otherwise disposed of according to law.

13.20 The Contractor shall receive as additional compensation a reasonable amount for additional services performed for, and reasonably related to, the vehicle recovery and towing services required under this Contract. Any claim for additional compensation must receive the approval of the Chief of Police prior to the services being rendered.

IN WITNESS WHEREOF, the parties have executed this agreement on the 20th day of March 2014.

RESOLUTION NO. 08-01

WHEREAS, the City of Carter Lake, Iowa, has declared by resolution and designation by ordinance an area of the City of Carter Lake, Iowa, as meeting the criteria for an Urban Revitalization Area, authorized by Chapter 404 of the Code of Iowa; and

WHEREAS, the City Council has approved an Urban Revitalization Plan for the Area; and,

WHEREAS, the property is located within the Carter Lake Urban Revitalization Area, as legally described on the attached application; and,

WHEREAS, the proposed improvements would be in conformance with the approved plan; and,

WHEREAS, Blue Waters Mini-Golf, owner of record, requests prior approval for eligibility for tax exemption for the proposed improvements as indicated on the attached application.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF CARTER LAKE, IOWA:

THAT, the City Council hereby approve the request for prior approval for eligibility for tax exemption for the proposed improvements as indicated on the attached application; and

BE IT FURTHER RESOLVED:

THAT, such prior approval shall not entitle the owner to exemption from taxation until the owner apply for exemption on improvements in the year the improvements, partial or complete, are first assessed for taxation.

PASSED AND APPROVED THIS 20TH DAY OF FEBRUARY, 2001.

Date

Name of Business: General Manufacturing City: Omaha State: NE Zip: 68110

Contact Information – Name: Mark Fisher Phone: 402-541-6469 Email: mark@general-mfg.com

☐ Expansion of Iowa Company ☒ New Location in Iowa

1. **Describe the company, its products, and the customer base:**
   Manufacturers of hospitality and institutional furniture including booths, barstool, lounge chairs, tables, and custom pieces.

2. **Describe the project including location (city/county), proposed project activities, and estimated start date:**
   We would like to build a new facility in Carter Lake, IA. We intend on building a facility that is approximately 15,000 to 20,000 square feet.

3. **Does the business plan to lease the facility?** ☐ Yes ☒ No
   If yes, please provide the Annual Base Rent Payment (lease payment minus property taxes, insurance, and operating/maintenance expenses) in the budget below, and only major renovation costs your company expects to incur.

4. **Please estimate the project budget to the best of your ability:** Include only costs the company plans to incur directly

Budget Item:	Amount:	Estimated Timeline (over 3 years)
Base Rent (3 years)		
Tenant Improvements		
Land Acquisition (if not leased)	we currently own land in Carter Lake	
Site Preparation (if not leased)		
Building Acquisition (if not leased)		
Building Construction (if not leased)	$600,000 to $700,000	
Building Remodeling (if not leased)		
Mfg. Machinery & Equip.	$100,000	
Other Machinery & Equip.		
Computer Hardware	$5,000	
Computer Software		
Furniture & Fixtures		
Research & Development		
Other (specify)		
TOTAL	$705,000 to $805,000	

5. **Employment:** Describe the number of employees and the pay scale that would result from this project (add rows if needed):

Job Category	No. of Jobs	Created (C) or Retained(R)	Starting or Current Wage Rate	Wage at 36 months following the award
executive staff	1	c	$50000	$53000
office staff	1	c	$35000	37000
management	1	c	38000	42000
production	6	c	30000	34000
delivery and install	1	c	30000	34000
TOTAL	11	c	333000	370000

"Retained job" means an existing full-time, permanent position which is at risk of elimination in Iowa, if the project does not proceed. Verification may be requested during the application process.

* **NOTE:** This questionnaire is neither an award nor a contract. It is designed to establish basic program eligibility and provide estimates of potential assistance according to the details provided. The estimates provided are for sample purposes only. All actual assistance amounts will be determined based on completion of a full application, final approval by the board, and satisfactory compliance with all contractual terms. All awards of assistance are ultimately subject to the requirements of the applicable Iowa law authorizing IEDA's programs.

6. ***"Sufficient benefits"*** Financial assistance programs require that companies provide a certain level of medical insurance to full time, permanent employees. Please answer the following questions about your company's benefits:

   a) How many full-time, permanent employees does your company currently employ within the State of Iowa? 0

   b) What percentage of the total premium costs for a standard medical plan for single employee coverage does your company pay? 0 %
   What is the deductible associated with this plan? $____

   c) What percentage of the total premium costs for a standard medical plan for family coverage does your company pay? 0 %
   What is the deductible associated with this plan? $____

   d) Does your company provide additional benefits to full time employees? yes
   Benefits counted toward monetary equivalent could include medical and dental insurance plans, pension, retirement, profit-sharing plans, child care services, life insurance coverage, vision insurance coverage, and disability insurance coverage.

Other Project Information:

7. ☐ Interest in EB-5 loan (A low-cost form of alternative financing, for qualifying projects over $30 million, through a program with federal oversight)

8. Is the project located in an Enterprise Zone? ☐ Yes ☐ No ■ Not sure

9. NAICS Code for primary business operations, if known: 337127

10. If known, what other sources of funds have been identified for the project?

11. Have you been in contact with any state or local/community development representatives in the State of Iowa?

    ■ Yes ☐ No If so, whom? Lori Holste, Mike Dellinger, Starlyn Isaacson

12. Is the Business actively considering locations outside of Iowa? ■ Yes ☐ No
    If yes, please explain.

Additional Information:

If direct financial assistance is provided, acceptable collateral will be required to secure the financing. Types of collateral that the Board may require include: an irrevocable letter of credit, escrow account, mortgage on real estate, corporate guaranty, surety bond, or personal guarantee. As an alternative, your company can elect to pledge no collateral and draw the available funding at the end of the five year contract. The amount of funding at that time will be based on actual contract compliance.

The IEDA Board has a local community match policy. If your company proceeds to a full application, participation at the local level should be anticipated.

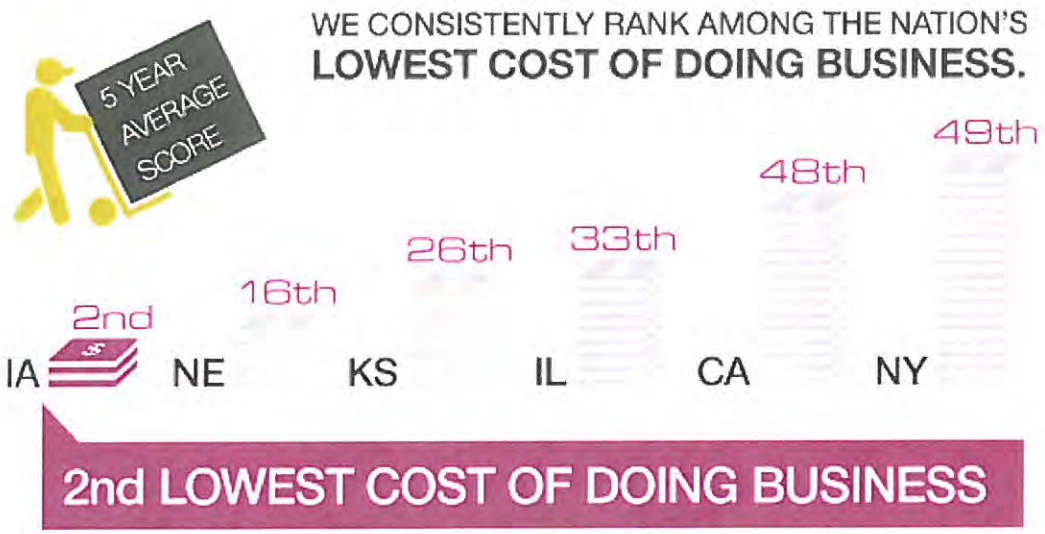
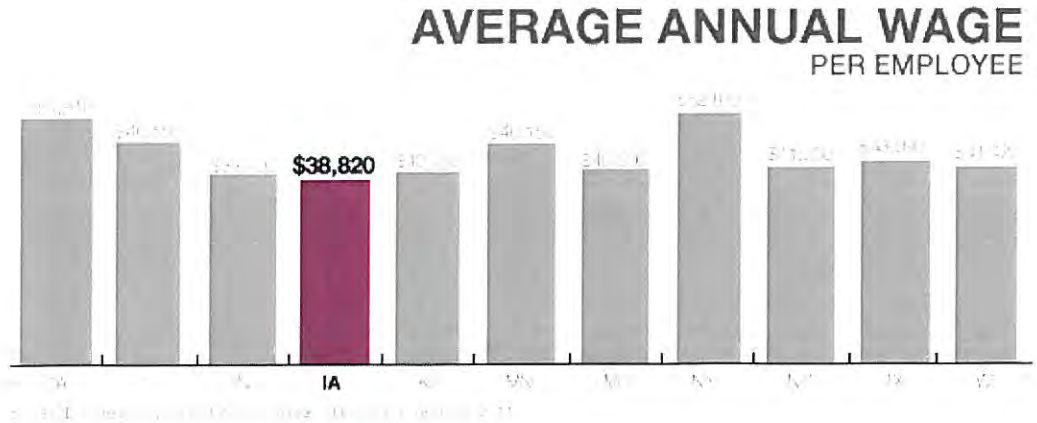
Cost of Doing Business

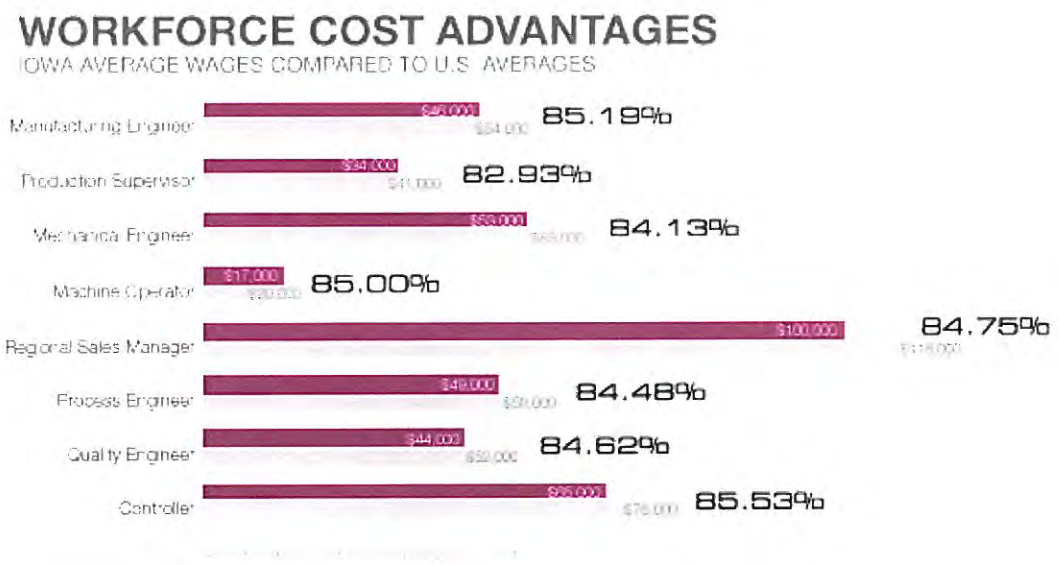
Lower Business Costs, Higher Profits

Year-in and year-out, Iowa ranks among the nation's best states for cost of doing business. In fact, in three of the last five years, Iowa was number one in the country. Bottom line, low operational costs and a pro-business environment make Iowa a great choice for growing your business and your profitability.

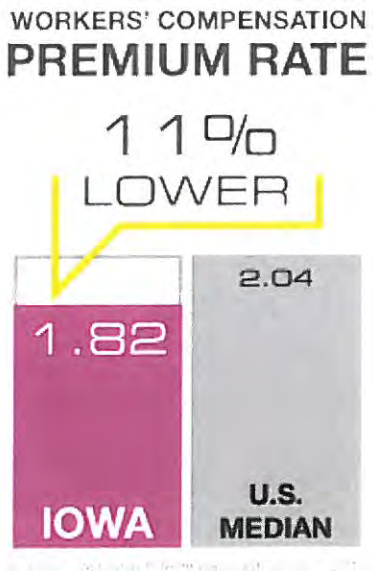


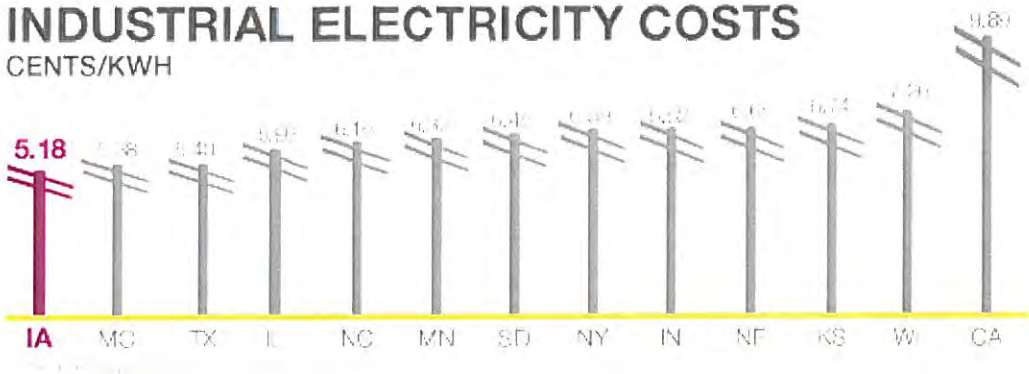
Iowa is a right to work state and payroll costs are 14.1 percent below the national average ($45,230). The average Iowa manufacturing worker makes $49,770 – 14.9 percent below the U.S. industry average.





Iowa's industrial real estate costs are low – rental rates for Iowa industrial space are 15 percent below the national average, and industrial construction costs 18 percent lower. Iowa industrial electricity prices run 21 percent below the national averages.





A proactive and responsive business tax, regulatory and legal framework positions Iowa among the nation's most "business friendly" states.

110.17 Exemptions and Credits Applicable to Storm Water Service Charges

110.01 PURPOSE AND OBJECTIVE.

1. The purpose of this chapter is to establish a policy and procedure for managing and controlling the quantity and quality of storm water runoff, within the City limits. The management shall include the establishment of a storm water utility to provide revenues for whatever aspects of this requirement are deemed appropriate by the City.

2. The City finds, determines, and declares that the storm water drainage system provides benefits and services to all property within the City limits. Such benefits include, but are not limited to: the provision of adequate systems for collection, conveyance, detention, treatment, and release of storm water for quality and quantity management that minimize impacts on receiving waters.

3. In order to manage additions and improvements to the City storm water systems, the City must have adequate and stable funding for its storm water management program operating and capital investment needs.

110.02 CREATION OF A STORM WATER MANAGEMENT AND DRAINAGE SYSTEMS UTILITY.

1. The function of the Storm Water Management and Drainage Systems Utility (hereinafter referred to as "storm water utility") within the Maintenance Department is to provide for the safe and efficient capture of storm water runoff, mitigate the damaging effects of storm water runoff, correction of storm water problems, to fund activities of storm water management, and includes design, planning, regulations, education, coordination, construction, operations, maintenance, inspection, and enforcement activities.

2. There is hereby established a storm water utility within the City which shall be responsible for creating revenue for storm water management throughout the City's corporate limits, and shall provide for the management, protection, control, regulation, use, and enhancement of storm water systems and facilities. Such utility shall be

under the operational direction of the Maintenance Supervisor. The corporate limits of the City shall constitute the boundaries of the storm water utility district.

3. The City shall establish a Storm Water Utility Fund in the City budget and accounting system, separate and apart from its General Fund, for the purpose of dedicating and protecting all funding applicable to the purposes and responsibilities of the utility.

110.03 DEFINITIONS.

1. "Adjustment" means a modification in a nonresidential customer's storm water service fee for certain activities that impact storm water runoff or impact the City's costs of providing storm water management.

2. "Detached dwelling unit" means developed land containing one structure that is not attached to another dwelling and which contains one or more bedrooms, with a bathroom and kitchen facilities, designed for occupancy by one family. Detached dwelling units may include houses, manufactured homes, and mobile homes located on one or more individual lots or parcels of land.

3. "Director" means the director of the Storm Water Utility.

4. "Equivalent Residential Unit" (ERU) means the average area of a detached dwelling unit property within the City, and shall be used as the basis for determining storm water service charges to detached dwelling unit properties. One ERU is equivalent to 12,750 square feet.

5. "ERU rate" means the dollar value periodically determined and assigned to each ERU as a charge for storm water management services, expressed as $4.00 per ERU.

6. "Exempt property" includes public streets, alleys, and sidewalks.

7. "Ground water" means sub-surface water or water stored in pores, cracks, and crevices in the ground below the water table.

8. "Impervious area" means the number of square feet of hard-surfaced areas which either prevent or resist the entry of water into soil surface, as it entered under natural conditions as undeveloped property, and/or cause water to run off the surface in greater quantities or at an increased rate of flow from that present under natural conditions as undeveloped property. This includes but is not limited to roofs, roof extensions, patios, porches, driveways, sidewalks, pavement, athletic courts, and semi-impervious surfaces such as gravel which are used as driveways or parking lots.

9. "Nonresidential properties" means all properties not encompassed by the definition of residential property. Nonresidential properties include: apartment building properties; condominium properties; mobile home parks; commercial property; industrial property; institutional property; governmental property; churches; hospitals; schools; transient rentals; parking lots; Federal, State and local properties; and any other property not mentioned in the lists of properties.

10. "Occupant" means the person residing or doing business on the property. In a family or household situation, the person responsible for the obligation imposed shall be the adult head of the household. In a shared dwelling or office situation, the adult legally responsible for the management or condition of the property shall be responsible.

11. "Owner" means the legal owner(s) of record as shown on the tax rolls of Carter Lake, Iowa, except where there is a recorded land sale contract, the purchaser thereunder shall be deemed the owner.

12. "Residential property" means all single-family and duplex properties within the City.

13. "Service charges" means the periodic rate, fee, or charge applicable to a parcel of land, which charge shall be reflective of the service provided by the Carter Lake storm water utility.

14. "Storm sewer" means a sewer that carries storm water, surface runoff, street wash waters, and drainage, but which excludes sanitary sewage and industrial wastes, other than permitted discharges.

15. "Storm water" means storm water runoff, snowmelt runoff, and surface runoff and drainage.

16. "Storm water drainage system" means all manmade facilities, structures, and natural watercourses owned by the City, used for collection and conducting storm water to, through, and from drainage areas to the points of final outlet, including (but not limited to) any and all of the following: conduits and appurtenant features, canals, creeks, catch basins, ditches, streams, gullies, ravines, flumes, culverts, siphons, streets, curbs, gutters, dams, floodwalls, levees, and pumping stations.

17. "Storm water facilities" means various storm water and drainage works, which may include inlets, pipes, pumping stations, conduits, manholes, energy dissipation structures, stream channels, outlets, retention/detention basins, infiltration practices and other structural components.

18. "Storm water management" means the tasks required to control storm water runoff using storm water management systems, to protect the health, safety, and welfare of the public, and comply with relevant State and Federal regulations.

19. "Storm water management systems" address the issues of drainage management (flooding) and environmental quality (pollution, erosion, and sedimentation) of receiving rivers, streams, creeks, lakes, ponds, and reservoirs through improvements, maintenance, regulation and funding of plants, works, instrumentalities and properties used or useful in the collection, retention, detention, and treatment of storm water or surface water drainage.

20. "Storm water utility" means the utility established under this chapter for the purpose of managing storm water and imposing charges for the recovery of costs connected with such storm water management.

21. "Surface water" means water bodies and any water temporarily residing on the surface of the ground including lakes, reservoirs, rivers, ponds, streams, puddles, channelized flow and runoff.

22. "Undeveloped property" describes land in its unaltered natural state or which has been modified to such minimal degree as to have a hydrologic response comparable to land in an unaltered natural state shall be deemed undeveloped. Undeveloped land shall have minimal concrete pavement, asphalt, or compacted gravel surfaces or structures which create an impervious surface.

23. "User" means the owner and/or occupant of any property within the limits of the City, and means any person who uses property that maintains connection to,

discharges to, or otherwise receives services from the City for storm water management. The occupant of any habitable property is deemed the user. If the property is not occupied, then the owner shall be deemed the user.

24. "Water course" means a natural overland route through which water passes, including drainage courses, streams, creeks, and rivers.

110.04 EFFECTIVE DATE OF STORM WATER SERVICE CHARGES. Storm water service charges shall accrue beginning November 1, 2012, and shall be billed monthly thereafter to all customers.

110.05 STORM WATER UTILITY FUND.

1. Funding for the storm water utility's activities may include, but are not limited to: storm water service charges; storm water permits and inspection fees; other funds or income obtained from Federal, State, local, and private grants, or loans.

2. All service charges and all sources of revenue generated by or on behalf of the storm water utility shall be deposited in a storm water utility fund and used exclusively for management of the storm water utility.

110.06 STORM WATER UTILITY BUDGET. The City shall adopt an operating and capital budget for the storm water utility each fiscal year. The budget shall set forth revenues for such fiscal year and estimated expenditures for operations, maintenance, improvements, replacement, and debt service. No revenues generated by the storm water utility user fee shall be used for any purpose other than storm water expenses.

110.07 RATE STRUCTURE AND STORM WATER SERVICE CHARGE. Any property, lot, parcel of land, building, or premises that is tributary directly or indirectly to the storm water system of the City, shall be subject to a charge based upon the square footage of the property situated within the City. This charge is not related to the water and/or sewer service and does not rely on occupancy of the premises to be in effect. All properties within the City will be assigned an equivalent residential unit (ERU) or a multiple thereof, with all properties receiving at least one ERU, which shall be considered the base or minimum rate for storm water utility charge.

1. For the purpose of this chapter, an ERU is equivalent to 12,750 square feet or less in area.

2. Determination of Storm Water Utility Fee.

A. The storm water utility fee for residential areas shall be 100% of the ERU rate. Effective November 1, 2012, the rate shall be based on the following schedule:

Residential properties of 12,750 square feet or less	Base rate (1 ERU) $4.00 per month
Residential properties in excess of 12,750 square feet	Base rate (1 ERU) $4.00 per month plus $.0002 multiplied by the number of square feet in excess of 12,750 square feet

The maximum residential bill per month will be $25.00. Changes to the monthly rate shall be determined by ordinance.

B. The storm water utility fee for commercial properties shall be:

Commercial properties of 219,391 square feet or less	Base rate $6.00 per month
Commercial properties in excess of 219,391 square feet	Base rate $6.00 per month plus $.0004 multiplied by the number of square feet in excess of 219,391 square feet

The maximum commercial bill per month will be $50.00. Changes to the monthly rate shall be determined by ordinance. The number of square feet on each property shall be determined by the storm water utility.

C. The storm water utility fee for industrial properties shall be:

Industrial properties of 336,926 square feet or less	Base rate $6.00 per month
Industrial properties in excess of 336,926 square feet	Base rate $6.00 per month plus $.0004 multiplied by the number of square feet in excess of 336,926 square feet

The maximum industrial bill per month will be $50.00. Changes to the monthly rate shall be determined by ordinance. The number of square feet on each property shall be determined by the storm water utility.

D. The storm water utility fee for government, church and non-profit properties shall be a rate equivalent to commercial and industrial properties:

Government, church, and non-profit properties of 219,391 square feet or less	Base rate $6.00 per month
Commercial and industrial properties in excess of 219,391 square feet	Base rate $6.00 per month plus $.0004 multiplied by the number of square feet in excess of 219,391 square feet

The maximum government, church, and non-profit bill per month will be $50.00. If a government, church, or non-profit owns multiple adjoining properties, the owner will be charged one fee at the commercial and industrial rate per month for all of the adjoining properties. Changes to the monthly rate shall be determined by ordinance.

E. Effective November 1, 2012, the storm water utility fee for mobile home community property shall be charged a per residence fee of $4.00 per month based on the average number of mobile homes in the community.

110.08 POWERS OF DIRECTOR OF THE STORM WATER UTILITY. Storm water service charges incurred pursuant to this chapter may be collected by the City Clerk or designee, who is also responsible for the regulation, collection, rebating and refunding of such storm water charges. The storm water utility service charge may be billed on a common statement and collected along with other City utility services, usually on a monthly basis. Any property that is currently not developed and does not receive a water and/or sewer utility bill will be billed on a quarterly basis for the prior three months' storm water utility fee.

110.09 POWERS AND DUTIES OF THE CITY. The City shall have the following powers, duties, and responsibilities with respect to the storm water utility:

1. Administer the design, construction, maintenance, and operation of the utility system, including capital improvements designated in the comprehensive drainage plan.

2. Acquire, construct, lease, own, operate, maintain, extend, expand, replace, clean, dredge, repair, conduct, manage, and finance such facilities, operations, and activities, as are deemed by the City to be proper and reasonably necessary for a system of storm and surface water management. These facilities may include, but are not limited to, surface and underground drainage facilities, storm sewers, watercourses, ponds, ditches, and such other facilities relating to collection, runoff, treatment and retention that will support a storm water management system.

3. The City shall separately account for the storm water utility finances. The storm water utility shall prepare an annual budget, which is to include all operation and maintenance costs and costs of borrowing. The budget is subject to approval by the City Council. Any excess of revenues over expenditures in a year shall be retained in a segregated fund, which shall be used for storm water utility expenses in subsequent years. Storm water utility fees collected shall be deposited in the storm water utility fund and shall be used for no other purpose.

110.10 RESPONSIBILITY FOR THE STORM WATER MANAGEMENT AND DRAINAGE SYSTEM.

1. The City storm water management and drainage system consists of all rivers, streams, creeks, branches, lakes, reservoirs, ponds, drainage ways, channels, ditches, swales, storm sewers, culverts, inlets, catch basins, pipes, head walls and other structures, natural or manmade, within the political boundaries of the City which control and/or convey storm water through which the City intentionally diverts surface waters from its public streets and properties. The City owns or has legal access for purposes of operation, maintenance, and improvements to those segments of this system which:

   A. Are located within public streets, rights-of-way, and easements;

   B. Are subject to easements of rights-of-entry, rights-of-access, rights-of-use, or other permanent provisions for adequate access for operation, maintenance, and/or improvement of systems and facilities; or

   C. Are located on public lands to which the City has adequate access for operation, maintenance, and/or improvement of systems and facilities. Operation and maintenance of storm water systems and facilities which are located on private property or public property not owned by the City and for which there has been no public dedication of such systems and facilities for operation, maintenance, and/or improvement of the systems and facilities shall be and remain the legal responsibility of the property owner.

2. It is the intent of this chapter to protect the public health, safety and general welfare of all properties and persons in general, but not to create any special duty or relationship with an individual person or to any specified property within or without

the boundaries of the City. The City expressly reserves the right to assert all available immunities and defenses in any action seeking to impose monetary damages upon the City, its officers, employees and agents arising out of any alleged failure or breach of duty or relationship as may now exist or hereafter be created.

110.11 REQUIREMENTS FOR ON-SITE STORM WATER SYSTEMS, ENFORCEMENT AND INSPECTIONS.

1. All property owners and developers of developed real property within the City shall provide, manage, maintain, and operate on-site storm water systems sufficient to collect, convey, detain, and discharge storm water in a safe manner consistent with all City, State, and Federal laws and regulations.

2. Pursuant Section 364.12(3) or successor section of the *Code of Iowa*, any failure to meet this obligation may constitute a nuisance and may be subject to an abatement action filed by the City. In the event a nuisance is found to exist, which the owner fails to properly abate within such reasonable time as allowed by the City, the City may enter upon the property and cause such work as is reasonably necessary to be performed, with the actual cost thereof assessed against the owner in the same manner as a tax levied against the property. The City shall have the right, pursuant to the authority of this section, for its designated officers and employees to enter upon private and public property owned by entities other than the City, upon reasonable notice to the owner thereof, to inspect the property and conduct surveys and engineering tests thereon in order to assure compliance.

110.12 RIGHT TO APPEAL. Any customer who believes the provisions of this chapter have been applied in error may appeal in the following manner:

1. An appeal must be filed in writing with the City Maintenance Supervisor. In the case of service charge appeals, the appeal shall include a survey prepared by a registered Iowa land surveyor or professional engineer containing information on the total property area, the impervious surface area and any other features or conditions which influence the hydrologic response of the property to rainfall events.

2. Using the information provided by the appellant, the Maintenance Supervisor shall conduct a technical review of the conditions on the property and respond to the appeal in writing within 30 days.

3. In response to an appeal, the Maintenance Supervisor may adjust the storm water service charge applicable to a property in conformance with the general purpose and intent of this chapter.

4. A decision of the Maintenance Supervisor which is adverse to an appellant may be further appealed to the City Council within 30 days of receipt of notice of the adverse decision. Notice of the appeal shall be served on the City Council by the appellant, stating the grounds for the appeal. The Council shall schedule a public hearing within 30 days. All decisions of the Council shall be served on the appellant by registered mail, sent to the billing address of the appellant.

5. All decisions of the Council shall be final.

110.13 BILLING AND COLLECTION.

1. The storm water utility service charge may be billed on a common statement and collected along with other City utility services, usually on a monthly basis. Any property that is currently not developed and does not receive a water and/or sewer utility bill will be billed on a quarterly basis for the prior three months' storm water utility fee.

2. A storm water service charge bill may be sent through the United States mail or by alternative means, notifying the customer of the amount of the bill, the date the payment is due, and the date when past due. Failure to receive a bill is not justification for nonpayment. Regardless of the party to whom the bill is initially directed, liability for payment of the storm water management charge attributable to that property shall be joint and several as to the owner and occupant.

3. All comprehensive storm water service charges are due and payable 30 days after the date of billing.

4. A penalty of nine percent shall be added to a comprehensive storm water service charge when the charge is not paid in said 30 days.

110.14 TERMINATION OF UTILITY SERVICES AND ASSESSMENT OF UNPAID CHARGES. After giving reasonable notice, the City may discontinue water service to any customer who has failed to pay the amounts due and owing under this chapter and who has not contested the payment therefor in good faith. Unpaid storm water utility fees may be charged or assessed in the same manner as water, sewer, and garbage utility.

110.15 LIEN FOR NONPAYMENT. Except as provided for in Section 92.06 of this Code of Ordinances, the owner of the premises served and any lessee or tenant thereof shall be jointly and severally liable for storm water service charges to the premises. Storm water service charges remaining unpaid and delinquent shall constitute a lien upon the premises served and shall be certified by the Clerk to the County Treasurer for collection in the same manner as property taxes.

(Code of Iowa, Sec. 384.84)

110.16 LIEN NOTICE. A lien for delinquent storm water service charges shall not be certified to the County Treasurer unless prior written notice of intent to certify a lien is given to the customer in whose name the delinquent charges were incurred. If the customer is a tenant and if the owner or landlord of the property or premises has made a written request for notice, the notice shall also be given to the owner or landlord. The notice shall be sent to the appropriate persons by ordinary mail not less than thirty (30) days prior to certification of the lien to the County Treasurer.

(Code of Iowa, Sec. 384.84)

110.17 EXEMPTIONS AND CREDITS APPLICABLE TO STORM WATER SERVICE CHARGES. All public or private property shall be subject to storm water utility service charges except as provided in this chapter. A storm water utility service charge formula is available in the office of the storm water utility. The following areas are exempt from storm water utility service charges:

1. Property owned by the City of Carter Lake.

2. Streets, alley ways, and highways in the public and private domain are exempt from utility service charges or connection fees.

3. Railroad rights-of-way (tracks) shall be exempt from storm water service charges. However, railroad stations, maintenance buildings, or other developed land used for railroad purposes shall not be exempt from storm water service charges.

NOTICE TO ALL RESIDENTS AND PROPERTY OWNERS
IN THE
CITY OF CARTER LAKE, IOWA
REGARDING WATER, SEWER, GARBAGE
AND
STORMWATER UTILITY BILLING

Aug. 13, 2012

After a comprehensive review of our utility funds and the proposed increase expenditures in the future, the city council has determined that in order to cover our costs, it is necessary to increase the water, sewer, and administrative fees that are billed monthly.

WATER

The current water fees were established on July 1, 2006. During the past six (6) years the council has not increased water rates. However, during that time the cost to purchase water from MUD has increased and we anticipate it will continue to increase over the next five years.

At this time the council is proposing water rate increases to go into effect on November 1, 2012. A copy of the proposed water rate schedule is included with this letter.

SEWER

The current sewer fees were established on July 1, 2009. During the past three (3) years the council has not increased sewer rates. However, during that time the City of Omaha has increased the fees that we pay to them to treat our sewer. Due to the increased regulations on separating storm and sanitary sewer we anticipate that the rates the City of Omaha charges will continue to increase over the next five years.

Again, the council is proposing a sewer rate increase to go into effect November 1, 2012. A copy of the proposed sewer rate schedule is included with this letter.

GARBAGE

Unlike the water and sewer fees, the council was able to negotiate a contract for trash removal at a lower fee. On January 1, 2011 residential garbage fees were reduced from $12.95 per month to $10.00 per month. After reviewing this account and service contracts the council determined that the garbage fee could be reduced even further at this time.

Effective November 1, 2012 the council is proposing a decreasing in the monthly residential garbage fee to $5.50. Over the next five years the rate will be increased gradually to cover the anticipated cost of living increases for the trash hauling contractor.

ADMINISTRATIVE FEES

The monthly administrative fee that is collected with your utility bill is assessed to cover the cost of the contractor that reads the utility meters and provides other necessary related billing and collection services. This fee was set at $3.50 per month on July 1, 2005. The council is proposing to increase the monthly administrative fee to $4.00 per month effective November 1, 2012.

In an effort to keep the Administrative Fees to a minimum the City Council is proposing to enact new user fees. Those fees are as follows:

Delinquent Fee. A delinquent fee of $3.00 will be assessed to any bill not paid by the 10th of the month. This fee will be assessed to cover the cost of preparing and mailing the delinquent notice post cards.

Shut-off Notice Fee. A $7.00 fee will be assessed to any account where payment is not made in a timely manner and the billing agent must deliver a shut-off notice to the property. This fee will be assessed to cover the cost of preparing, delivering and posting the shut-off fees.

Service Termination/Restoration Fee. A $30.00 fee will be assessed to any account where service is shut-off for lack of payment. This fee will be assessed to compensate for the cost of discontinuing and restoring water service.

STORM WATER UTILITY

The City of Carter Lake has been designated a MS-4 community by the Iowa Department of Natural Resources and the U S Environmental Protection Agency. MS-4 stands for Municipal Separate Storm Sewer System. As such we are required to meet mandates set out by the State and Federal government regarding storm water runoff.

The council finds it necessary to establish a policy and procedure for managing and controlling the quantity and quality of storm water runoff, within the city limits of Carter Lake, Iowa. The management shall include the establishment of a storm water utility to provide revenues for whatever aspects of this requirement are deemed appropriate by the City.

Storm water drainage systems provide benefits and services to all property within the city limits. Such benefits include, but are not limited to: the provision of adequate systems for collection, conveyance, detention, treatment and release of storm water for quality and quantity management that minimize impacts on receiving waters.

In order to manage additions and improvements to the city storm water systems, the City must have adequate and stable funding for its storm water management program operating and capital investment needs. Therefore, the council has proposed implementing a storm water utility fee to all property owners in Carter Lake. The fee will be based on the square footage of property owned. The fee will go into effect on November 1, 2012. It will be included on the monthly bill that you receive for water, sewer, and garbage. The fee will be due and payable in the same manner as the water, sewer, and garbage bill. Water service can be disconnected for non-payment.

ANNUAL REVIEW

The ordinances that will be adopted include annual rate increases. The City Council will review these rates each year to determine if they need adjusted to meet the financial needs at that time. Rates will only be changed by ordinance.

PUBLIC HEARING

The City Council will hold a public hearing regarding the proposed rates for water, sewer, garbage, storm water and administrative fees. The public hearing is scheduled for September 17, 2012 at 7:00 PM. Citizens are welcome to attend this meeting to voice their opinions on the rate changes. Written comments may be submitted to the office of the City Clerk any time prior to the public hearing.

Attached for your review are the proposed rate schedules.

WATER RATES

ADMINISTRATIVE FEES

Residential & Commercial

Flat Fee	July 1, 2005 and after Cost Per Bill	11/1/2012 to 6/30/2013	7/1/2013 to 6/30/2014	7/1/2014 to 6/30/2015	7/1/2015 to 6/30/2016	7/1/2016 to 6/30/2017	7/1/2017 to 6/30/2018
Flat fee	3.50	4.00	4.00	4.00	4.00	4.00	4.00

STORMWATER RATES

Effective 11/1/2012

Residential

Residential Property 12,750 square feet or less - $4.00 per month
Residential Property in excess of 12,750 square feet - $4.00 plus $.0002 multipled by the number of square feet in excess of 12,750 sq feet
Residential Maximum bill per month - $25.00

Commercial and Industrial Property

Commercial and Industrial Property 12,750 square feet or less - $6.00 per month
Commercial and Industrial Property in excess of 12,750 square feet - $6.00 plus $.0004 multipled by the number of square feet in excess of 12,750 sq feet
Commercial and Industrial Maximum bill per month - $50.00

Government, Church, and Non-Profit Property

If multiple adjoining properties owner will be charged one fee at the commercial and industrial rate per month

Mobile Home Community Property

Charged per residence at the Residential Property 12,750 square feet or less - $4.00 per month

CITY OF WEST BRANCH
COUNCIL ACTION REPORT

MEETING DATE: March 3, 2014 AGENDA ITEM: 8a

DATE PREPARED: February 25, 2014

STAFF LIAISON: Matt Muckler, City Administrator

ACTION TITLE: City Engineer Dave Schechinger, PE, and City Attorney Kevin Olson will brief the West Branch City Council on the potential formation of a stormwater utility for the City of West Branch. Discussion Only.

☒ WORKSHOP ☐ SPECIAL ☐ CONSENT ☐ NON-CONSENT ☐ TABLED ☐ PUBLIC HEARING

PROJECT DESCRIPTION:*

Stormwater runoff is rainfall or snowmelt that flows from saturated permeable surfaces like roofs and paved driveways, sidewalks, parking lots and streets. Stormwater runoff creates drainage and flooding problems, making sump pumps work hard. Stormwater runoff often picks-up pollutants such as oils, grease, fertilizers, pesticides, litter and metals. Stormwater runoff is collected and conveyed through ditches, culverts, intakes, catch basins and storm sewers directly into creeks, streams, lakes and rivers without being treated to remove pollutants.

A number of municipalities in Iowa have established policies and procedures for managing and controlling the quantity and quality of stormwater runoff and established stormwater utilities to fund their stormwater management programs and facilities. Some of the communities include Ames, Bettendorf, Boone, Burlington, Carroll, Clive, Coralville, Des Moines, Dubuque, Iowa City, Norwalk, Sac City, State Center, Sioux City, Waukee, Windsor Heights and West Des Moines.

These cities have found that the stormwater drainage system provides benefits and services to all property within the city limits, including the provision of adequate systems for collection, conveyance, detention, treatment and release of stormwater for quality and quantity management that minimize impacts on receiving waters.

Property owners are charged stormwater management fees based on the total impervious surface area on the property. An Equivalent Residential Unit (ERU) is measured by the square footage. Iowa City's ERU is 3,129 square feet. Coralville's ERU is 3,440 square feet. The stormwater management fee system is based on the total impervious surface area divided by one ERU. In most municipalities, single-family dwelling properties are charged the fee for one ERU. Commercial properties with greater than one ERU of impervious surface area are charged for the total ERUs rounded up to the nearest ERU. In both Iowa City and Coralville, non-residential properties are charged $2.00 for the first ERU and $0.75 for each ERU thereafter.

City Engineer Dave Schechinger and City Attorney briefed the City Council on the formation of a stormwater utility at the May 5, 2013 City Council Meeting. An ordinance was considered at the August 19, 2014 City Council Meeting and was tabled for future consideration.

(continued on the next page)

Since that time, City Engineer Dave Schechinger has developed five potential funding scenarios for the City Council to consider. City Attorney Kevin Olson has drafted an ordinance for the City Council to consider that is based in part on the model stormwater utility ordinance produced by the Iowa Stormwater Education Program.

RECOMMENDATIONS:
City Council should have discussion on the pros and cons of creating a stormwater utility. If the decision is made to move forward with a stormwater utility ordinance, members of the City Council could provide feedback to city staff on which funding scenario is preferred or if there are any suggested changes to Ordinance 718.

ORDINANCE NO. 718

AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF WEST BRANCH BY CREATING AND INCORPORATING A STORM WATER UTILITY.

WHEREAS, the City Council of the City of West Branch, Iowa, has heretofore deemed it necessary and desirable to create a storm water utility for the construction, repair and maintenance of the storm water management system within the City; and

WHEREAS, in order to fund a storm water program, the City Council has heretofore deemed it necessary for the collection of fees from contributors and users of the storm water management system within the City.

NOW, THEREFORE, BE IT ORDAINED:

1, Amendment. The Code of Ordinances of the City of West Branch is hereby amended by incorporating the chapter entitled "Storm Water Utility", which reads as attached on Exhibit "A" attached hereto.

Section 2 Conflicts. All ordinances or parts of ordinances not specifically provided for and in conflict with the provisions of this ordinance are hereby repealed.

Section 3. Adjudication. If any section, provision, or part of this ordinance shall be adjudged to be invalid or unconstitutional, such adjudication shall not affect the validity of the ordinance as a whole or any section, provision or part thereof not adjudged invalid or unconstitutional.

Section 4. Effective Date. This ordinance shall be in full force and effect after its passage, approval and publication as required by law.

EXHIBIT "A"

STORM WATER UTILITY

SECTION 1. PURPOSE.

1. The purpose of this Article is to establish a policy and procedure for managing and controlling the quantity and quality of stormwater runoff, within the city limits of West Branch, Iowa. The management shall include the establishment of a stormwater utility to provide revenues for whatever aspects of this requirement are deemed appropriate by the City.
2. The city finds, determines and declares that the stormwater drainage system provides benefits and services to all property within the city limits. Such benefits include, but are not limited to: the provision of adequate systems for collection, conveyance, detention, treatment and release of stormwater for quality and quantity management that minimize impacts on receiving waters.
3. In order to manage additions and improvements to the city stormwater systems, the City must have adequate and stable funding for its stormwater management program operating and capital investment needs. It is determined and declared to be necessary and conducive to the public health, welfare, safety and convenience of the City and its residents that charges be levied and collected from the owners or occupants of all lots, parcels of real estate, and buildings that discharge storm water or surface or subsurface waters, directly or indirectly, to the City storm water drainage system, and that the proceeds of such charges so derived be used for the purposes of operation, maintenance, repair and replacement, including the payment of debt service, for construction and repair of the storm water drainage system and flood protection improvements comprising the storm water utility.

SECTION 2. CREATION OF A STORM WATER UTILITY

1. The function of the Storm Water Utility is to provide for the safe and efficient capture of stormwater runoff, mitigate the damaging effects of stormwater runoff, correction of stormwater problems, to fund activities of stormwater management, and include design, planning, regulations, education, coordination, construction, operations, maintenance, inspection and enforcement activities.

2. There is hereby established a storm water utility within the City of West Branch, Iowa which shall be responsible for creating revenue for stormwater management throughout the City's corporate limits, and shall provide for the management, protection, control, regulation, use, and enhancement of stormwater systems and facilities. Such utility shall be under the operational direction of the Public Works Director. The corporate limits of the City, as increased from time to time, shall constitute the boundaries of the storm water utility district.

3. The City shall establish a Stormwater Utility Fund in the City budget and accounting system, separate and apart from its General Fund, for the purpose of dedicating and protecting all funding applicable to the purposes and responsibilities of the utility.

SECTION 3. DEFINITIONS.

1. User" means any person or entity owning, operating or otherwise responsible for property within the City, which directly or indirectly discharges storm water or subsurface waters to any portion of the storm water management system, including direct or indirectly protected by the City's flood protection system or storm water drainage system. The term "Contributor" or "User" means any person or entity responsible for the direct or indirect discharge of storm water or surface or subsurface waters to the City's storm water drainage system.

2. "Developed Property" means real property upon which a structure or impervious surface has been placed or constructed, thus increasing the amount of rainwater or surface water runoff.

3. "Director" means the City Administrator or his/her designee.

4. "Dwelling Unit" means a singular unit, apartment, condominium, mobile home or manufactured home which provides independent living facilities for one or more persons including permanent provisions for living, sleeping, eating, cooking or sanitation.

5. "Equivalent Residential Unit" ("ERU") means the average impervious area of a residentially developed property per dwelling unit located within the City, as periodically determined and established as provided in this Chapter.

6. "ERU Rate" means the dollar value periodically determined and assigned to each ERU as a charge for storm water management services, and expressed as $x.xx per ERU.

7. "Exempt Property" means public streets, alleys and sidewalks, cemeteries and public parks, including publicly owned property used for recreation.

8. "Impervious Area" means the number of square feet of hard-surfaced areas which prevent or retard infiltration of water back into the soil, as it would enter under natural conditions as undeveloped property, and/or cause water to run off the surface in greater quantities or at an increased rate of flow from that which was present under natural conditions as undeveloped property, including, but not limited to roofs, roof extensions, patios, porches, driveways, pavement, gravel/rock based parking areas and athletic courts.

9. "Multi-family residential property" means a residential structure designed with three or more dwelling units to accommodate three or more families or groups of individuals living separately and not sharing the same living space and mobile home parks.

10. "Non residential property" means any property developed for commercial, industrial, governmental or institutional use, including churches, hospitals, parking lots, nursing homes and multi-use facilities incorporating residential uses.

11. "Single-family residential property" means a detached residential structure, including a mobile/manufactured home, designed as a single dwelling unit to accommodate one family or a group of individuals living together and sharing the same living space, but excluding multi-use properties which include single-family residential uses.

12. "Storm water drainage system" means the system of publicly or privately operated rivers, creeks, ditches, drainage channels, pipes, basins, street gutters, and lakes within the City through which or into which storm water runoff, surface water or subsurface water is conveyed or deposited.

13. "Storm water management utility" means the enterprise fund utility created by this chapter to operate, maintain and improve the system and for such other purposes as stated in this chapter.

14. "Storm water management utility system" means the existing storm water management facilities, storm water drainage system, and flood protection system of the City and all improvements thereto which by this division are constituted as the property and management of the utility, to be operated as an enterprise fund to, among other things, conserve water, control discharges and flows necessitated by rainfall events; and incorporate methods to collect, store, absorb, inhibit, treat, use or reuse water to prevent or reduce flooding, over-drainage, environmental degradation and water pollution or otherwise affect the quality or quantity of discharge from such system.

15. Two-family residential property" means a residential structure with two dwelling units, to accommodate two families or groups of individuals living separately in different dwelling units.

16. "Undeveloped property" means any real property that has no impervious area.

SECTION 4. POWERS OF THE UTILITY.

The storm water management utility shall have the following powers, duties and responsibilities:

1. Prepare ordinances as needed to implement this division and place them for consideration and adoption by the City Council, and adopt such regulations and procedures as are required to implement this chapter and carry out its duties and responsibilities.

2. Administer the design, construction, maintenance and operation of the utility system, including capital improvements designated in the comprehensive drainage plan.

3. Administer and enforce this chapter and all ordinances, regulations and procedures related to design, construction, maintenance, operation and alteration of the utility system, including, but not limited to the quantity, quality and/or velocity of the storm water conveyed hereby.

4. Inspect private systems as necessary to determine the compliance of such systems with this chapter and any ordinances or regulations adopted by this chapter.

5. Prepare and revise a comprehensive drainage and flood protection plan for periodic review and adoption by the City Council.

6. Review plans, approve or deny, inspect and accept extensions to the storm water drainage system.

7. Annually analyze the cost of services and benefits provided, and the system and structure of fees, charges, fines, and other revenues of the utility, and to make recommendations regarding adjustment to such fees, charges, fines and other revenues.

8. Prepare and file an annual operating budget for the utility and make recommendations regarding the financing of the cost of extending and replacing portions of the system.

SECTION 5. ORGANIZATION

The City Council shall be the governing body of the storm water management utility. The storm water management utility shall be under the direction, management and control of the Public Works Director, who shall function as its director. In that capacity, the director shall supervise the day-to-day operation of the storm water management utility, shall enforce this chapter and the provisions of all ordinances and regulations adopted by the City Council and shall carry out the policy directives of the City Council acting in its role as governing body of the storm water management utility.

SECTION 6. ESTABLISHMENT OF THE EQUIVALENT RESIDENTIAL UNIT ("ERU").

For purposes of this chapter, the ERU shall be the equivalent to 3,500 square feet of impervious area.

SECTION 7. STORM WATER UTILITY CHARGE.

Every user owning or occupying property that is not exempt property in the City of West Branch shall pay to the City a storm water utility charge as determined in this chapter. In the event that the owner and occupant of the particular property are not the same, the liability for payment of the storm water utility charge attributable to the property shall be joint and several as to the owner and the occupant.

SECTION 8. ERU RATE.

The ERU rate to be applied to residential and nonresidential properties shall be as follows:

a. Commencing July 1, 2014, the ERU rate will equal $2.00
b. Commencing July 1, 2015, the ERU rate will equal $2.25
c. Commencing July 1, 2016, the ERU rate will equal $2.50
d. Commencing July 1, 2017, the ERU rate will equal $2.75.
e. Commencing July 1, 2018, the ERU rate will equal $3.00.

SECTION 9. DETERMINATION OF THE STORM WATER UTILITY CHARGE.

1. Single-Family and Two-Family Residential Property.

   a. The storm water utility charge for single-family properties shall be one hundred percent (100%) of the ERU rate per month.

   b. The storm water utility charge for two-family residential properties shall be 2 times the ERU rate per month.

   c. The storm water utility charge shall commence upon the earlier of the following:

      (i) The issuance of a certificate of occupancy.
      (ii) Ninety (90) days after construction is halted, provided construction is at least 50% complete in the judgment of the director.
      (iii) Ninety (90) days after construction is completed, even if no certificate of occupancy has been issued.

2. Multi-Family Residential Property and Nonresidential Property.

   a. The storm water utility charge for multi-family residential properties and nonresidential properties, or a structure containing both multi-family residential and nonresidential uses, shall be calculated as follows:

      (i) One hundred percent (100%) of the ERU rate per ERU for the first twenty (20) ERUs, plus
      (ii) $0.75 per ERU for each ERU after the first twenty ERU's.

   b. The storm water utility charge shall commence upon the earlier of the following:

      (iv) The issuance of a certificate of occupancy.
      (v) Ninety (90) days after construction is halted, provided construction is at least 50% complete in the judgment of the director.
      (vi) Ninety (90) days after construction is completed, even if no certificate of occupancy has been issued.

SECTION 10. POWERS AND DUTIES OF CITY.

The City shall have the following powers, duties, and responsibilities with respect to the stormwater utility:

1. Administer the design, construction, maintenance and operation of the utility system, including capital improvements designated in the comprehensive drainage plan.
2. Acquire, construct, lease, own, operate, maintain, extend, expand, replace, clean, dredge, repair, conduct, manage, and finance such facilities, operations, and activities, as are deemed by the City to be proper and reasonably necessary for a system of storm and surface water management. These facilities may include, but are not limited to, surface and underground drainage facilities, storm sewers, watercourses, ponds, ditches, and such other facilities relating to collection, runoff, treatment and retention as will support a stormwater management system.
3. The City shall separately account for the stormwater utility finances. The stormwater utility shall prepare an annual budget, which is to include all operation and maintenance costs and costs of borrowing. The budget is subject to approval by the City Council. Any excess of revenues over expenditures in a year shall be retained in a segregated fund, which shall be used for stormwater utility expenses in subsequent years. Stormwater utility fees collected shall be deposited in the stormwater utility fund and shall be used for no other purpose.

SECTION 11. RESPONSIBILITY FOR STORM WATER MANAGEMENT AND DRAINAGE SYSTEM.

1. The City stormwater management and drainage system consists of all rivers, streams, creeks, branches, lakes, reservoirs, ponds, drainage ways, channels, ditches, swales, storm sewers, culverts, inlets, catch basins, pipes, head walls and other structures, natural or man-made, within the political boundaries of the City of West Branch which control and/or convey stormwater through which the City intentionally diverts surface waters from its public streets and properties. The City owns or has legal access for purposes of operation, maintenance and improvements to those segments of this system which
   (a) are located within public streets, rights-of-way, and easements;

   (b) are subject to easements of rights-of-entry, rights-of-access, rights-of-use, or other permanent provisions for adequate access for operation, maintenance, and/or improvement of systems and facilities; or

   (c) are located on public lands to which the City has adequate access for operation, maintenance, and/or improvement of systems and facilities. Operation and maintenance of stormwater systems and facilities which are located on private property or public property not owned by the City of West Branch and for which there has been no public dedication of such systems and

facilities for operation, maintenance, and/or improvement of the systems and facilities shall be and remain the legal responsibility of the property owner.

2. It is the intent of this section to protect the public health, safety and general welfare of all properties and persons in general, but not to create any special duty or relationship with an individual person or to any specified property within or without the boundaries of the City of West Branch. The City of West Branch expressly reserves the right to assert all available immunities and defenses in any action seeking to impose monetary damages upon the City, its officers, employees and agents arising out of any alleged failure or breach of duty or relationship as may now exist or hereafter be created.

SECTION 12. REQUIREMENTS FOR ON-SITE STORMWATER SYSTEMS, EMFORCEMENT AND INSPECTIONS.

1. All property owners and developers of developed real property within the City of West Branch shall provide, manage, maintain, and operate on-site stormwater systems sufficient to collect, convey, detain, and discharge stormwater in a safe manner consistent with all City, State, and Federal laws and regulations.
2. Pursuant Iowa Code Section 364.12(3) or successor section of the State Code, any failure to meet this obligation may constitute a nuisance and may be subject to an abatement action filed by the City. In the event a nuisance is found to exist, which the owner fails to properly abate within such reasonable time as allowed by the City, the City may enter upon the property and cause such work as is reasonably necessary to be performed, with the actual cost thereof assessed against the owner in the same manner as a tax levied against the property. The City shall have the right, pursuant to the authority of this section, for its designated officers and employees to enter upon private and public property owned by entities other than the City, upon reasonable notice to the owner thereof, to inspect the property and conduct surveys and engineering tests thereon in order to assure compliance.

SECTION 13. APPEALS.

A. An owner or occupant of a multi-family residential property aggrieved by the initial or subsequent calculation of the number of dwelling units upon or in such property, calculation of the storm water utility charge, or allocation of such charge amount the occupants, may appeal such calculations and allocation to the City Administrator. Upon such appeal, the storm water utility charge for such property may be recalculated utilizing information supplied by the appealing owner or occupant, provided such information provided is correct by the City Administrator.

B. An owner or occupant of a nonresidential property aggrieved by the initial or subsequent calculation of the amount of impervious area upon or in such property, calculation of the storm water utility charge, may appeal such calculations and allocation to the City

Administrator. Upon such appeal, the storm water utility charge for such property may be recalculated utilizing information supplied by the appealing owner or occupant, provided such information provided is correct by the City Administrator.

C. Any adjustment of the storm water utility charge resulting from such appeal shall be retroactive to the date the appeal was filed.

D. Appeals by owners or occupants of property subject to the storm water utility charges shall be filed with the City Clerk on forms provided by the City. The City Administrator shall file a final calculation of the storm water utility charge within thirty (30) days of the appeal being filed. If still aggrieved, the party may request a City Council review of the City Administrator's decision. Any person still aggrieved by the determination of the City Council may appeal to the county district court by action filed within thirty (30) days of the City Council's decision. The filing of an appeal shall not excuse the payment of the storm water utility charge when due. However, the City shall refund any portion of the fee deemed excessive, with interest, as provided by law.

SECTION 14. BILLING PROCEDURES.

A. All contributors and users shall pay a storm water utility charge monthly as calculated pursuant to Section 6 of this Ordinance.

B. All storm water utility charges are due and payable under the same terms and conditions provided for payment of a combined service account as outlined in Section 92.04 of this Code.

C. The owner of the premises served and the tenant thereof shall be jointly and severally liable for storm water utility charges for the premises. Storm water utility charges remaining unpaid and delinquent shall constitute a lien against the premises served and shall be certified as delinquent to the County Treasurer for collection in the same manner as property taxes.

More Central Iowa cities form stormwater utilities

BY JOE GARDYASZ
Senior Staff Writer

As the state dries out from one of its soggiest summers on record, a growing number of Central Iowa communities are imposing fees on businesses and residents to foot the cost of building and maintaining stormwater infrastructure.

A majority of Greater Des Moines cities now assess stormwater utility fees, and among those that don't, at least a few are considering doing so. Though record rainfall exacerbated many cities' stormwater problems, a flood of federal clean-water regulations are also driving the trend, officials say.

The city of Urbandale, for instance, began collecting stormwater fees at the beginning of this year. Indianola is in the final stages of approving a stormwater utility that would be effective Jan. 1. Johnston's city council is currently considering a stormwater ordinance as well. Altoona has also approved a stormwater utility that will begin collecting fees on Jan. 1.

"There are so many regulations for storm water, and they've gotten so much more strict, we felt they should be paid for on a direct-cost basis and not through property taxes," said Altoona Mayor Tim Burget. And like many cities in Iowa, Altoona has battled flooding from unusually heavy rains in the past few years.

As communities grow, they often experience more stormwater runoff problems due to their increasing impervious surface areas.

"I think it's as much a fairness issue," Burget said. "Let the areas creating the cost help pay for fixing the problem."

Most homeowners in Altoona will pay a monthly fee of $3 in the first year, which will increase in 50-cent steps in each of the next four years to $5. By comparison, Altoona's largest commercial property, Prairie Meadows Racetrack and Casino, will be assessed a total of nearly $34,000 next year, part of approximately $400,000 the city estimates it will collect in 2011.

Greater Des Moines stormwater utilities status

City	Date formed	s.f./ ERU	Res'l rate	Comm'l rate *
Altoona	January 2011	4,000	$3	$3
Ankeny	July 2009	4,000	$4	$3
Bondurant	July 2010	2,450	$2.50	$2.50
Carlisle	None			
Clive	November 2005	3,667	$5	$5
Des Moines	July 2003	2,349	$7.87	$7.87
Grimes	None			
Indianola	January 2011	3,400	$2	$2
Johnston	Considering			
Norwalk	May 2008	3,000	$7.50	$7.50
Pleasant Hill	None			
Polk City	None			
Urbandale	July 2010	3,200	$1.50	$1.50
Waukee	July 2006	2,973	$4.25	$4.25
West Des Moines	June 2006	4,000	$4.25	$4.25
Windsor Heights	2004	n/a	$4.25	$29.75 -$340 **

* Monthly rate per ERU ** Flat monthly fee based on four size categories of properties. Source: City Public Works Departments

On the back burner

Stormwater utilities provide a mechanism for cities to pay for stormwater infrastructure improvements by assessing property owners based on the amount of surface area they have that creates runoff. Typically, a city will calculate the average residence's square footage of roof and concrete surfaces that don't absorb rainwater and use that equivalent residential unit (ERU) to assess homeowners and businesses. Many cities assume an average of one ERU per residence, and for commercial properties apply a rate to the the actual square footage of impervious surfaces divided by the square footage of the average residential lot.

Iowa communities are "a little behind" other states' efforts to establish stormwater utilities, said Pat Sauer, stormwater services coordinator for the Iowa Association of Municipal Utilities.

"I would say storm water has been on the back burner for too long for most cities," Sauer said. She estimates that 26 cities in the state have established stormwater utilities.

Pleasant Hill is among a handful of Greater Des Moines cities that have not instituted a stormwater utility. Russ Paul, the city's stormwater coordinator, said he has broached the topic with the city council, "but the current council is showing no real interest." Paul, whose position was created two years ago as part of Pleasant Hill's streets and utilities department, said he believes a stormwater utility is going to be a necessity for every community.

"As (federal stormwater regulations) get more restrictive, there has to be a way to fund someone to take control of the projects," he said. "It's really an unfunded mandate from the federal government."

Des Moines, among the first cities in the state to create a stormwater utility following the Floods of 1993, will collect about $14.6 million in stormwater utility revenues this year and incur approximately $6 million in costs. Having a stormwater utility has been essential to the city's ability to mitigate potential flooding damage, said Bill Stowe, Des Moines public works director.

"If we as a city had to rely on general obligation bonds or the general fund and didn't have a stormwater utility, we would be competing with a number of other priorities," he said. "This makes very apparent the tie to funding and improvements in protection."

Des Moines' monthly fee, currently $7.87 per ERU, is scheduled to increase by 8 percent on Jan. 1 to $8.50 per ERU, the highest of any city in the metro area. Earlier this year, the city issued $19.1 million in stormwater revenue bonds, which are repaid with future revenues from the fees.

"There's no question that there are a number of federal clean water requirements that drive this," Stowe said. "But also a significant portion of it is not only water quality but also water quantity. We're a low-lying city at the confluence of two rivers in a significant watershed, so flood protection is a primary piece."

The Des Moines City Council is likely to consider a further increase within the next year, Stowe said. "We're in the process of trying to come up with the appropriate rate increase," he said.

Money mover

Chuck Becker, an environmental attorney with the Belin McCormick law firm in Des Moines, said the recession has contributed to more interest by cities in establishing stormwater utilities. "Overnight, cities passing these stormwater ordinances are going to find themselves in better shape financially," he said.

"It's a movement of money, but one that I think is sensible," he added. "The trick with stormwater utilities is that you have to plan ahead. A city may not need it now, but in five years it will."

About seven years ago, Becker represented the Bell Avenue Business Center in a successful appeal of those fees. The judge ruled that the business park did not receive any benefit from the city's storm sewer infrastructure because storm water drained from the property directly into Gray's Lake.

Since then, "some businesses have objected, but not to a great degree," he said. "The reason is that it's easy to see that you have to pool enough money on something like this to effectively address, just like streets in many ways."

Becker said if the U.S. Environmental Protection Agency proceeds with rules that create "drainageway districts," cities could face significant increases in regulatory costs. "But at least the cities with stormwater utilities will have the mechanisms in place to address it."

The $500,000 Urbandale expects to collect in the first year of its program is just "making a dent" in covering stormwater project costs, said David McKay, the city's drector of engineering and public works.

Altoona strives to collect half of its revenue from residences and half from commercial properties.

Beginning in June, the City of Iowa City will begin charging a stormwater utility fee to all customers. This stormwater charge will be included in monthly water and sewer bills, and has been established by ordinance through the City Council.

Stormwater is the rainfall runoff that flows into streets, storm sewers and ditches, and is then carried directly into nearby streams and rivers. A storm water utility fee is a mechanism to fund the cost of stormwater management. Iowa City is now required to implement various programs related to stormwater quality under a new federally mandated Stormwater Permit. In the past, stormwater management focused only on handling the large quantities of water from stormwater, and the resulting flooding issues.

Under new Federal guidelines, the *quality* aspect of stormwater management has become increasingly important. The new Federal regulations focus on pollutants carried by stormwater into streams and rivers that are known to be prevalent and harmful. This new emphasis on stormwater management strives to protect and improve our valuable water resources. It also means that Iowa City must spend more money on stormwater management than it has in the past. In order to undertake these new stormwater initiatives, Iowa City was faced with the question of how to pay for such new services, without assistance from either State or Federal governments. It was determined that Iowa City would initiate a stormwater utility user fee, and not rely solely on property tax or other revenue for financing. Most surrounding communities have already implemented stormwater fees.

The utility fees will help pay for various stormwater services. Some of these services include storm sewer inspection, cleaning, maintenance/repair, public education, and administrative costs associated with stormwater management. In addition, the stormwater utility fees will pay for practices and projects to help improve water quality and reduce flooding in Iowa City. This includes funding for new storm sewer construction, separation of combined sewers, and modifications to existing troubled systems.

All single-family homes will pay the same $2.00 monthly fee. Multi-family dwellings will pay $1.00 monthly per unit. The fee for non-residential properties will be based on the actual impervious area and will vary for each property. An impervious area is a surface that does not allow water to soak into the ground. For example, driveways, rooftops, and sparking lots are considered to be impervious areas.

The City of Iowa City is striving to improve the water quality of its creeks, streams, and river. We are also working to protect our infrastructure, businesses, and homes from damage due to flooding. This effort will be ongoing, and information will continue to be provided in order to educate and update you on this program. Additional information can be found at www.icgov.org/stormwater.

Prepared by: Brian Boelk, Public Works, 410 E. Washington Street, Iowa City, IA 52240; 319-356-5141

ORDINANCE NO. _____

AN ORDINANCE AMENDING TITLE 3 ENTITLED "CITY FINANCES, TAXATION & FEES," CHAPTER 4, "SCHEDULE OF FEES, RATES, CHARGES, BONDS, FINES, AND PENALTIES"; AMENDING TITLE 14 ENTITLED "UNIFIED DEVELOPMENT CODE," CHAPTER 3, "CITY UTILITIES," ARTICLE A, "GENERAL PROVISIONS," SECTION 14-3A-2, "DEFINITIONS," AND SECTION 14-3A-4, "RATES AND CHARGES FOR CITY UTILITIES" AND; AMENDING TITLE 14 ENTITLED "UNIFIED DEVELOPMENT CODE," CHAPTER 3, "CITY UTILITIES," ARTICLE G, "STORM WATER COLLECTION, DISCHARGE AND RUNOFF," TO CREATE A STORMWATER UTILITY AND ESTABLISH A STORMWATER UTILITY FEE.

WHEREAS, the City of Iowa City, since its incorporation, has constructed a stormwater infrastructure with point source and non-point source discharges into the Iowa River and the six major creeks; and

WHEREAS, the City stormwater infrastructure carries stormwater runoff either directly or indirectly from properties within the City to the Iowa River; and

WHEREAS, the Iowa River, the major creeks, and the City's stormwater infrastructure are available for stormwater and ground water discharges; and

WHEREAS, the City incurs costs to monitor, maintain, replace, and improve its stormwater infrastructure; and

WHEREAS, the City is now required to have a national pollutant discharge elimination system (NPDES) permit to operate and maintain its stormwater infrastructure and to otherwise protect the waters of the Iowa River and the six major creeks; and

WHEREAS, the City has identified an ongoing need to fund water quality improvements in streams, creeks, and ditches within the city as well as the need to fund improvements for maintaining and improving water quality and to mitigate and prevent flooding from stormwater runoff into City-owned storm sewers; and

WHEREAS, current and pending Federal and State regulations require the City to take additional affirmative steps in such areas as public education, public improvements, detection of illicit discharge in stormwater systems, construction of site runoff control, stormwater management, and pollution prevention programs to address water quality issues and flood control, which additional activities will create additional funding 0obligations for such mandated services; and

WHEREAS, pursuant to Chapter 388, Code of Iowa (2001), the City is authorized to establish City utilities including a stormwater drainage system utility; and

WHEREAS, the City now desires through this ordinance to create a stormwater drainage system utility and establish authority to implement and enforce user fees.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF IOWA CITY, IOWA:

SECTION I. AMENDMENT. Title 3, Chapter 4, entitled "Schedule of Fees, Rates, Charges, Bonds, Fines, and Penalties" is hereby amended by:

a. Renumbering Section 3-4-8 to Section 3-4-9.
b. Renumbering Section 3-4-7 to Section 3-4-8.
c. Renumbering Section 3-4-6 to Section 3-4-7.
d. Adding a new Section 3-4-6 as follows:

3-4-6: **STORM WATER UTILITY FEE**

Description of Fees, Charge, Bond Fine or Penalty :

Stormwater Utility Fee. Users include all users owning or occupying developed property in the city of Iowa City.

Amount of Fee, Charge, Bond, Fine, or Penalty:

One Equivalent Residential Unit (ERU) = $2.00

SECTION II. AMENDMENT. Title 14, Chapter 3, Article A, entitled "General Provisions" of the City Code is hereby amended by:

a. Repealing the Subsection entitled "City Utilities, City Utility Services" in Section 14-3A-2 and substituting the following in lieu thereof:

City Utilities, City Utility Services: The providing of water, wastewater, stormwater drainage, and/or solid waste services to persons who are obligated to pay for said services.

b. Adding a subsection entitled "Stormwater Drainage" in Section 14-3A-2 as follows:

Stormwater Drainage: Stormwater, ground water, and spent water discharged to the City's stormwater infrastructure.

c. Repealing Subsection 14-3A-4(A)(2) and substituting the following in lieu thereof:

2. All contributors or users owning or occupying property in the city of Iowa City shall be charged for the service used. In addition, a fee shall be charged to all account holders for operation, maintenance, and improvements to the City's stormwater infrastructure utility. The City shall review the user charge system and revise user charge rates as necessary to ensure that the system generates adequate revenues to pay the costs of operation and maintenance, necessary expansion and debt service, and that the system continues to provide for the uniform distribution of operation and maintenance among all users. The City will annually notify all users, in conjunction with a regular bill, of the stormwater utility charges and that portion of the user's bill attributable to stormwater management services. Such rates and charges shall be in the amounts set forth in the schedule of fees, Title 3, Chapter 4 of this Code.

SECTION III. That Title 14, Chapter 3, City Utilities, Article G of the Code of Ordinances of the City of Iowa City, Iowa is hereby amended by adding the following Section 14-3G-10, entitled "Stormwater Utility and Stormwater Utility Fee":

14-3G-10 **STORMWATER UTILITY & STORMWATER UTILITY FEE**

A. Purpose. It is determined and declared to be necessary and to lead or contribute to a result conducive to the protection of the public health, safety, welfare, and compliance with federal regulation, that a stormwater management utility district be established within the city. It is further determined and declared to be necessary and conducive to the protection of the public health, welfare, and safety of the city and its residents that charges be levied upon and collected from the owners or occupants of all developed lots, parcels or real estate, and buildings that discharge stormwater or surface or subsurface waters, directly or indirectly, to the city stormwater drainage system, and that the proceeds of such charges so derived be used for the purposes of management of storm water runoff quantity and quality, construction, operation, maintenance, repair, replacement and debt service for construction of the stormwater drainage, flood protection and stormwater quality improvements comprising the stormwater utility.

B. Definitions. As used in this Section, the following definitions shall apply:

City: City of Iowa City

Developed Property: Property upon which a structure or impervious surface has been placed or constructed, thus increasing the amount of rainwater or surface water runoff.

Director: The Public Works Director or designee.

Drainage Course: A shallow narrow grassed or paved overland route, either natural or constructed, over which water passes.

Dwelling Unit: A singular unit or apartment providing complete, independent living facilities for one or more persons including permanent provisions for living, sleeping, eating, cooking and sanitation.

Equivalent Residential Unit (ERU): The average impervious area of a single family residential property located within the city as periodically determined and established as provided in this Section.

ERU Rate: The dollar value periodically determined and assigned to each ERU as a charge for stormwater management services, and expressed as $X.XX per ERU.

Exempt Property: Public streets, alleys and sidewalks; all University of Iowa properties; all undeveloped properties.

Ground Water: Water beneath the surface of the earth which is not bound to soil particles.

Impervious Area: The number of square feet of hard-surfaced areas which either prevent or resist the entry of water into soil mantle, as it entered under natural conditions as undeveloped property, and/or cause water to run off the surface in greater quantities or at an increased rate of flow from that present under natural conditions as undeveloped property, including but not limited to roofs, roof extensions, patios, porches, driveways, sidewalks, pavement, athletic courts, and semi-impervious surfaces such as gravel which are used as driveways or parking lots.

Multi-family Residential Property: Residential structures designed with two or more dwelling units to accommodate two or more families or groups of individuals living separately and not sharing the same living space.

Non-Point Source Discharge: Water discharged from the earth's surface to a drainage course or water course.

Non-residential Property: Any developed lot not exclusively residential, including but not limited to, transient rentals, commercial, institutional, churches, hospitals, governmental properties and parking lots, and multi-use properties incorporating residential uses.

Point Source Discharge: Water discharged to the earth's surface through a pipe, conduit, tube, duct, channel or pumping facility.

Single-Family Residential Property: A detached residential structure designed as a single dwelling unit to accommodate one family or group of individuals living together and sharing the same living space, but excluding multi-use properties which include single-family residential uses.

Stormwater Drainage System District: The area served by the stormwater utility.

Stormwater Infrastructure: The entire constructed and natural stormwater and ground water drainage system within the City limits of Iowa City.

Stormwater Management: The tasks required to control stormwater runoff to protect the health, safety, and welfare of the public, and comply with state and federal regulations. It includes but is not limited to street sweeping, erosion control, stormwater basin improvements and maintenance, culvert and storm sewer maintenance, stormwater management planning and related public education.

Stormwater Utility: The utility established under this Section for the purpose of managing stormwater and imposing charges for the recovery of costs connected with such stormwater management.

Surface Water: Stormwater, ground water, and spent water received by the earth's surface.

Undeveloped Property: A parcel that has no impervious area.

User: The owner and/or occupant of any developed property within the limits of Iowa City.

Water Course: A natural overland route through which water passes, including drainage courses, streams, creeks, and rivers.

C. District. The entire City is hereby organized into one stormwater utility district.

D. Powers and Duties. The City shall have the following powers, duties, and responsibilities with respect to the Stormwater Utility:

1. Prepare ordinances as needed to implement this division and forward the ordinances to the City Council for consideration and adoption, and adopt such regulations and procedures as are required to implement this division and carry out its duties and responsibilities.
2. Administer the design, construction, maintenance and operation of the utility system, including capital improvements designated in the comprehensive drainage plan.
3. Acquire, construct, lease, own, operate, maintain, extend, expand, replace, clean, dredge, repair, conduct, manage, and finance such facilities, operations, and activities, as are deemed by the City to be proper and reasonably necessary for a system of storm and surface water management. These facilities may include, but are not limited to, surface and underground drainage facilities, storm sewers, watercourses, ponds, ditches, and such other facilities relating to collection, runoff, and retention as will support a stormwater management system, whether such facilities are owned and operated directly by the City or are provided under statutory or contractual provisions and furnishings of which facilities create or impose a cost or charge upon the City for the service afforded by such facilities.
4. The City shall separately account for the stormwater utility finances. The stormwater utility shall prepare an annual budget, which is to include all operation and maintenance costs, costs of borrowing, and other costs related to the operation of the stormwater utility. The budget is subject to approval by the City Council. Any excess of revenues over expenditures in a year shall be retained in a segregated fund, which shall be used for stormwater utility expenses in subsequent years. Stormwater utility fees collected shall be deposited in the stormwater enterprise fund and shall be used for no other purpose.

E. Establishment of Equivalent Residential Unit (ERU) rate and stormwater utility charge.

1. For purposes of this article, an ERU shall be equivalent to 3,129 square feet of impervious area.
2. Except as provided in this article, every user owning or occupying property that is not exempt property in the City of Iowa City shall pay to City a stormwater utility charge as determined in this article. In the event the owner and the occupant of a particular property are not the same the liability for payment of the stormwater management charge attributable to that property shall be joint and several as to the owner and occupant.
3. The ERU rate to be applied to properties shall be as defined in §3-4-6 of the City Code.
4. The monies derived from the stormwater utility charge shall be used solely for the operation and maintenance of the City wide stormwater infrastructure and related water quality programs.

F. Determination of stormwater utility charge

1. The stormwater utility charge for single-family residential properties shall be 100% of the ERU rate per month. As to these properties, the stormwater utility charge shall commence upon the earlier of the following:
   a. The issuance of a certificate of occupancy;
   b. 90 days after construction is halted, provided construction is at least 50% complete; or

c. 90 days after construction is completed, even if a certificate of occupancy has not been issued for the residence.

2. For multi-family residential properties the stormwater utility charge shall be 50% of the ERU rate multiplied by the number of individual dwelling units existing on the property. As to these properties, the stormwater utility charge shall commence upon the earlier of the following:
   a. The issuance of a certificate of occupancy;
   b. 90 days after construction is halted, provided construction is at least 50% complete; or
   c. 90 days after construction is completed, even if a certificate of occupancy has not been issued for the residence.

3. For non-residential property, the stormwater utility charge shall be a base rate of one ERU rate, plus $0.75 multiplied by the numerical factor obtained by dividing the total impervious area of the particular property by the number of square feet in one ERU. As to these properties, the stormwater utility charge shall commence upon the earlier of the following:
   a. The issuance of a certificate of occupancy;
   b. 90 days after construction is halted, provided construction is at least 50% complete; or
   c. 90 days after construction is completed, even if a certificate of occupancy has not been issued for the residence.

G. Appeals.
1. An owner or occupant of a multi-family residential property aggrieved by the initial or any subsequent calculation of the number of dwelling units upon or in such property, calculation of the stormwater utility charge, or allocation of such charge among occupants, may appeal such calculations and allocation to the director. Upon such appeal, the stormwater utility charge for such property may be recalculated utilizing information supplied by the appealing owner or occupant, provided such information is verified as correct by the director.
2. An owner or occupant of non-residential property aggrieved by the initial or any subsequent determination of the total impervious area of such property, calculation of the stormwater utility charge for such property, or allocation of such charge among occupants, may appeal such calculations and allocation to the director. Upon such appeal, the stormwater utility charge for such property may be recalculated utilizing information supplied by the appealing owner or occupant, provided such information is verified as correct by the director.
3. Any adjustment of the stormwater utility charge resulting from such appeal shall be retroactive to the date the appeal was filed.
4. Appeals by the owners or occupants of property subject to stormwater utility charges shall include a statement of the number of dwelling units, total property area, and/or total impervious area, as appropriate for the particular grounds for appeal. Such information may be shown on the stormwater utility reporting forms or on appeal forms, and may be accompanied by plats, County Assessor's records, or survey data. The director may request additional information from the appealing party. Based upon the information provided by the utility and appealing party, the director shall make a final calculation of the stormwater utility charge. The director shall notify the parties, in writing, of the director's decision within 90 days after receipt of the appeal. If still aggrieved, a party may request, in writing, a review by the City Manager of the director's decision. Such request must be filed with the City Manager within 30 days after the director's decision, shall cite the specific error by the director, and shall include the calculation of stormwater utility charge which the appealing party believes to be correct. The City Manager shall review the record presented and render a written decision within 30 days after receipt of the request for review. The City Manager may request additional information from the director or the appealing party. If still aggrieved, a party may request review of the City Manager's decision by the City Council in the same manner as above, provided for review by the City Manager. The filing of an appeal shall not excuse the payment of the stormwater utility charge when due. However, the City shall refund any portion of the charge paid subsequent to the filing of the appeal which is adjudged to be excessive, with interest at the rate provided by law.

H. Credits.
1. Non-residential properties that obtain a National Pollutant Discharge Elimination System (NPDES) industrial stormwater permit from the Iowa Department of Natural Resources (IDNR) are eligible for a 50% reduction in their monthly stormwater utility bill.
2. Proof of the NPDES permit must be submitted to the Director and approved prior to the establishment of the credit.
3. The City or Director reserve the right to verify the permit compliance and to inspect the facilities at any time.

l. Billing procedures, delinquent accounts and collection procedures.
   1. The charges established hereunder will be billed monthly to customers in the Iowa City stormwater utility district.
   2. Collection and delinquent account procedures shall be as in §14-3A-6 of the City Code.

SECTION IV. REPEALER. All ordinances and parts of ordinances in conflict with the provisions of this Ordinance are hereby repealed.
SECTION V. SEVERABILITY. If any section, provision or part of the Ordinance shall be adjudged to be invalid or unconstitutional, such adjudication shall not affect the validity of the Ordinance as a whole or any section, provision or part thereof not adjudged invalid or unconstitutional.
SECTION VI. EFFECTIVE DATE. This Ordinance shall be in effect after its final passage, approval and publication.

Do other cities have stormwater user-fees?

A number of municipalities in the United States have established stormwater utilities to fund their stormwater management programs and facilities. Some of the communities in Iowa include: Ames, Bettendorf, Boone, Burlington, Carroll, Clive, Coralville, Des Moines, Dubuque, Iowa City, Norwalk, Sioux City, Windsor Heights and West Des Moines. The number of stormwater utilities utilizing user-fees in the Des Moines metropolitan area is expected to increase to pay costs associated with developing stormwater management programs that comply with new federal requirements.

BILLING QUESTIONS

What is an ERU?

An ERU (equivalent residential unit) is a measure of impervious surface on a property. The City of Waukee has established one ERU as 2,973 square feet of impervious area.

How are the stormwater management fees calculated?

Property owners are charged stormwater management fees based on the total impervious surface area on the property. Each 2,973 square feet of impervious surface area is one Equivalent Residential Unit (ERU). The stormwater management fee system is based on the total impervious surface area divided by one ERU. All single-family dwelling properties are charged the fee for one ERU. Commercial properties with greater than one ERU of impervious surface area are charged for the total ERUs rounded up to the nearest ERU. Each duplex dwelling and each town home dwelling are treated as a single-family dwelling. Owners of rental properties will be responsible for payment of stormwater utility fees. An attempt has been made to create one statement for owners of multiple properties.

For example: a commercial property with 11,000 square feet of total impervious surface would be billed the equivalent stormwater management fees for four ERUs.

11,000 square feet divided by 2,973 square feet, (1 ERU) equals 3.7 ERUs.

3.7 ERUs rounded up to the nearest ERU are 4 ERUs.

4 ERUs times $2.75/ERU equals stormwater management fees of $11.00 per month.

If I think my bill is incorrect, what should I do?

Stormwater utility bills are based on the amount of impervious surface that is present on the property. The impervious surface is calculated from the latest aerial photographs and/or approved site plans. If you think the impervious surface area was incorrectly calculated and caused your stormwater management fees to be incorrect, you can appeal.

An appeal must be filed in writing with the City of Waukee City Administrator. In the case of service charge appeals, the appeal shall include a survey prepared by a registered Iowa land surveyor or professional engineer containing information on the total property area, the impervious surface area and any other features or conditions which influence the hydrologic response of the property to rainfall events. Prior to appealing, consider scheduling time to meet with an Engineering Department staff member to view the data used to determine the fee being charged.

Stormwater Utility

Answers to Frequently Asked Questions

City of Waukee

The Key to Good Living

GENERAL QUESTIONS

What is stormwater runoff and why do we need to manage it?

Stormwater runoff is rainfall or snowmelt that flows from saturated permeable surfaces like roofs and paved driveways, sidewalks, parking lots and streets. Stormwater runoff creates drainage and flooding problems, making sump pumps work hard. Stormwater runoff often picks-up pollutants such as oils, grease, fertilizers, pesticides, litter and metals. Stormwater runoff is collected and conveyed through ditches, culverts, intakes, catch basins and storm sewers directly into creeks, streams, lakes and rivers without being treated to remove pollutants.

New federal laws regulating stormwater runoff require the City of Waukee to evaluate, develop and implement a comprehensive stormwater quality management program to protect property and improve water quality.

FEDERAL MANDATE

In accordance with the federal Clean Water Act, the Iowa Department of Natural Resources (IDNR) has issued a Phase II NPDES Permit to the City of Waukee. The permit requires the City to develop and implement a comprehensive stormwater quality management program.

What is an impervious surface? And what does it have to do with stormwater?

An impervious surface is any surface area that does not readily absorb water. Because water cannot be absorbed by impervious surfaces, the water running off of impervious surfaces must be managed through well-planned, constructed and maintained stormwater facilities to prevent flooding and pollution in receiving waters.

The stormwater management fee is based on the amount of total impervious surface on your property.

Impervious surface is a good gauge of how much your property is contributing to the overall need for stormwater management facilities in the City of Waukee.

Is gravel considered an impervious surface?

Yes. It is difficult for water to soak into a packed gravel surface. Once gravel is compacted, surface water runs off it much like a paved surface. The gravel may slow the flow of water form an area, but nearly the same amount of runoff will flow from under the gravel as if the gravel was not there. Many flat roofs are covered with gravel, but they still shed the rainwater that falls on them. In addition, if cars or heavy equipment are traveling on gravel surfaces, the runoff typically carries pollutants like metals or petroleum into our waterways.

STORMWATER MANAGEMENT FEES

The stormwater management fees are based on impervious surface area on the property. An Equivalent Residential Unit (ERU) is a measure of the amount of the impervious surface area. One ERU is defined as less than or equal to 2,973 square feet of impervious surface area.

From June 25, 2006 through June 30, 2007, the stormwater management fee is $2.75 per ERU per month. After June 30, 2007, the monthly stormwater management fee is scheduled to increase by 50 cents per ERU each year until June 30, 2010. The monthly rate beyond fiscal year 2009/2010 will be determined by resolution of City Council prior to July 1 of each year.
The stormwater management fees will be billed by the Waukee Utility Billing Department.

Why do we have stormwater management fees?

The stormwater management fees raise revenues needed to fund the City of Waukee stormwater management program and facilities. This program brings the City into compliance with federal regulations and safeguards our community directly through improved inspection and maintenance of critical stormwater infrastructure and indirectly through public education and outreach programs.

The stormwater utility charges properties in the City of Waukee based on that property's contribution to the need for stormwater management and facilities.

How are the stormwater management fees different from a tax? What is a user-fee?

The stormwater management fee is a user-fee, much like the fee that you pay for your water utility or sanitary sewer utility services. Users of these services are charged for the demand they place on the system. The stormwater that flows off of your property places a demand on a vast system of stormwater infrastructure, which is costly to operate and maintain. Stormwater must be channeled through a system of ditches, culverts, intakes catch basins and pipes to discharge it into local creeks, streams lakes and rivers.

Who pays the fees?

Owners of all developed land in the City of Waukee pay the stormwater management fees. This includes residential properties, commercial properties, industrial properties, churches, schools and other non-profit organizations and federal, state, county and city governments. Undeveloped land is not charged stormwater management fees because it does not have impervious surfaces.

How is stormwater management fees used?

The stormwater management fees pay for operations and maintenance costs of the stormwater management and facilities.
Some of the services tied to the stormwater management program include:

- Storm sewer system maintenance, repairs and construction
- Illicit discharge detection and elimination
- Public education and outreach
- Improving water quality

AN ORDINANCE ENACTING CHAPTER 204A TITLED "STORM WATER MANAGEMENT UTILITY" ESTABLISHING THE STORM WATER MANAGEMENT UTILITY, ESTABLISHING THE STORM WATER MANAGEMENT DISTRICT, PROVIDING FOR IT'S MANAGEMENT AND OPERATION, AND ESTABLISHING AND IMPOSING RATES; AND PROCEDURES FOR COLLECTING RATES FOR STORM WATER MANAGEMENT WITHIN THE CORPORATE LIMITS OF THE CITY OF WAUKEE, IOWA.

WHEREAS, pursuant to §384.84 Code of Iowa (2005) the City may establish a storm water drainage system utility and impose rates and charges for the operation, maintenance and extension of the Storm Water Drainage system, which in the City of Waukee shall be known as the Waukee Storm Water Management Utility; and

WHEREAS, it is the best interests of the City of Waukee that the Storm Water Management Utility be established so as to provide for the proper operation and maintenance of the utility facilities and to provide for rates for the purposes of assuring sufficient funds for the same; and

WHEREAS, the City of Waukee declares the entire area within the Corporate Limits of the City of Waukee as the Storm Water Drainage System District pursuant to §384.84(5) Code of Iowa (2005) which shall be the area governed by the Waukee Storm Water Management utility.

BE IT ORDAINED by the City Council of the City of Waukee, Iowa:

Section 1. That the Municipal Code of the City of Waukee, Iowa, 2005, is hereby amended by enacting Chapter 204A Storm Water Management Utility as follows:

§204A.1 Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

A. *Bonds* means revenue bonds, notes, loans or any other debt obligations issued or incurred to finance the costs of construction.

B. *User* means any person owning, operating, or otherwise responsible for property within the city which directly or indirectly discharges stormwater or surface or subsurface waters to any portion of the stormwater management system, including direct or indirect discharges to the city's stormwater drainage system, or which is directly or indirectly protected by the city's flood protection system or stormwater drainage system. The term "user" means any person responsible for the direct or indirect discharge of stormwater or surface or subsurface waters to the city's stormwater drainage system.

C. *Costs of construction* means costs reasonably incurred in connection with providing capital improvements to the system or any portion thereof, including but not limited to the costs of the following:

(1) Acquisition of all property, real or personal, and all interests in connection therewith including all rights-of-way and easements therefore;

(2) Physical construction, installation and testing including the costs of labor, services, materials, supplies and utility services used in connection therewith;

(3) Architectural, engineering, legal and other professional services;

(4) Insurance premiums taken out and maintained during construction, to the extent not paid for by a contractor for construction and installation;

(5) Any taxes or other charges which become due during construction;

(6) Expenses incurred by the city or on its behalf with its approval in seeking to enforce any remedy against any contractor or subcontractor in respect of any default under a contract relating to construction;

(7) Principal and interest on any bonds; and

(8) Miscellaneous expenses incidental thereto.

D. *Debt service* means the amount of money necessary annually to pay the interest on outstanding debt and pay the principal of maturing bonded debt.

E. *Director* means the city engineer as director of the stormwater management utility.

F. *Equivalent residential unit* or *ERU* means the average impervious area of residential developed property per dwelling unit located within the city as periodically determined and established as provided in this division, which has been determined by the City to be 2,973 square feet of impervious surface area.

G. *Operating budget* means the annual operating budget for the stormwater management utility adopted by the city council for the succeeding fiscal year.

H. *Revenues* means all rates, fees, assessments, rentals or other charges or other income received by the utility, in connection with the management and operation of the system, including amounts received from the investment or deposit of moneys in any fund or account and any amounts contributed by the city, all as calculated in accordance with sound accounting practice.

I. *Stormwater drainage system* means the system of publicly or privately owned or operated rivers, creeks, ditches, drainage channels, pipes, basins, street gutters,

and lakes within the city through which or into which stormwater runoff, surface water, or subsurface water is conveyed or deposited.

J. *Stormwater management utility* or *utility* means the enterprise fund utility created by this division to operate, maintain and improve the system and for such other purposes as stated in this division.

§204A.2 Declaration of purpose; establishment of district.

A. The city council finds, determines, and declares it to be conducive to the health, welfare, safety and convenience of the city and its residents that a stormwater management utility district be established within the city. Consequently, pursuant to I.C. § 384.84(1), a stormwater management utility district, to be known as The Waukee Stormwater Management Utility, is established, and it is ordained and declared that the property located within the City Limits of the City of Waukee shall be and constitute the stormwater management utility district, and that the utility shall comprise and include elements of the city's stormwater drainage and flood protection systems which provide for the collection, treatment and disposal of stormwater, surface water, and groundwater. It is further found, determined, and declared that the elements of the stormwater management utility are of benefit and provide services to all real properties within the incorporated city limits, including property not directly served by the stormwater drainage system, and that such benefits and services may include but are not limited to the provision of adequate systems of collection, conveyance, detention, treatment and release of stormwater; the reduction of hazard to property and life resulting from stormwater runoff and flooding; improvement in general health and welfare through reduction of undesirable stormwater conditions and flooding; and improvement to the water quality in the stormwater and surface water system and its receiving waters.

B. It is further determined and declared to be necessary and conducive to the protection of the public health, welfare, safety and convenience of the city and its residents that charges be levied upon and collected from the owners or occupants of all lots, parcels of real estate, and buildings that discharge stormwater or surface or subsurface waters, directly or indirectly, to the city stormwater drainage system, and that the proceeds of such charges so derived be used for the purposes of operation, maintenance, repair, replacement and debt service for construction of the stormwater drainage and flood protection improvements comprising the stormwater management utility.

§204A.3 Powers, duties and responsibilities.

The stormwater management utility shall have the following powers, duties, and responsibilities:

A. Prepare ordinances as needed to implement this division and forward the ordinances to the city council for consideration and adoption, and adopt such

regulations and procedures as are required to implement this division and carry out its duties and responsibilities.

B. Administer the acquisition, design, construction, maintenance and operation of the utility system, including capital improvements designated in the comprehensive drainage plan.

C. Administer and enforce this division and all ordinances, regulations and procedures adopted relating to the design, construction, maintenance, operation and alteration of the utility system, including but not limited to the quantity, quality and/or velocity of the stormwater conveyed thereby.

D. Inspect private systems as necessary to determine the compliance of such systems with this division and any ordinances or regulations adopted pursuant to this division.

E. Prepare and revise a comprehensive drainage and flood protection plan for periodic review and adoption by the city council.

F. Review plans, approve or deny, inspect and accept extensions to the stormwater drainage system.

G. Establish and enforce regulations to protect and maintain water quality within the system in compliance with water quality standards established by state, regional and/or federal agencies as adopted or amended.

H. Annually analyze the cost of services and benefits provided, and the system and structure of fees, charges, fines and other revenues of the utility, and make recommendations regarding adjustments to such fees, charges, fines and other revenues.

I. Prepare an annual operating budget for the utility and make recommendations regarding the financing of the cost of extending and replacing the system.

§204A.4 Organization.

The city council shall be the governing body of the stormwater management utility. The stormwater management utility shall be under the direction, management and control of the Public Works Director who shall function as its director. In that capacity, the director shall supervise the day-to-day operation of the stormwater management utility, shall enforce this division and the provisions of all ordinances and regulations adopted pursuant to this division and shall carry out the policy directives of the city council acting in its role as governing body of the stormwater management utility.

§204A.5 Stormwater Service Charges Required. Every customer whose premises is served by a connection with the stormwater management system and facilities of the City of Waukee, either directly or indirectly, shall pay to the City stormwater service charges hereinafter established and specified for the purpose of contributing towards the costs of construction,

maintenance and operation of the stormwater management system and facilities and at least sufficient to pay the principal and interest related to Bonds issued for the purpose of financing all or part of those costs, and sufficient to comply with any covenants or conditions associated with any such Bonds so issued.

§204A.6 Effective Date of Stormwater Service Charges. Stormwater service charges shall accrue beginning July 1, 2006 and shall be billed monthly thereafter to all customers.

§204A.7 Basic Rate. Except as hereinafter noted, each customer whose property lies within the corporate limits of the City shall pay to the City, as a part of the customers combined service account with the Waukee Utility Billing Department, at the same time payment for other City utilities are made, the following charges per Equivalent Residential Unit associated with the customer's property:

A. Undeveloped. A flat storm sewer availability charge at the rate of $0.00 per month.

B. Residential. A storm sewer availability charge, regardless of the amount of the consumption by such customer, will be based on the following schedule:

Fiscal Year 2005/2006 – $2.75 per month
Fiscal Year 2006/2007 – $2.75 per month
Fiscal Year 2007/2008 – $3.25 per month
Fiscal Year 2008/2009 – $3.75 per month
Fiscal Year 2009/2010 - $4.25 per month

The monthly rate for each fiscal year beyond 2009/2010 will be determined by resolution of the City Council prior to July 1st of each year.

C. Commercial/Industrial. A storm sewer availability charge will be based on the following schedule:

Fiscal Year 2005/2006 – $2.75 per ERU per month
Fiscal Year 2006/2007 – $2.75 per ERU per month
Fiscal Year 2007/2008 – $3.25 per ERU per month
Fiscal Year 2008/2009 – $3.75 per ERU per month
Fiscal Year 2009/2010 - $4.25 per ERU per month

The monthly rate for each fiscal year beyond 2009/2010 will be determined by resolution of the City Council prior to July 1st of each year.

The number of Equivalent Residential Units (ERU) on each property shall be calculated by the Engineering Department based on the most recent aerial photograph available to the City of Waukee and/or impervious surface data from an approved Site Plan for the property.

Stormwater fee billing will begin upon water meter installation.

§204A.8 Rate Appeals. Any customer who believes the provisions of this chapter have been applied in error may appeal in the following manner:

A. An appeal must be filed in writing with the City of Waukee City Administrator. In the case of service charge appeals, the appeal shall include a survey prepared by a registered Iowa land surveyor or professional engineer containing information on the total property area, the impervious surface area and any other features or conditions which influence the hydrologic response of the property to rainfall events.

B. Using the information provided by the appellant, the City Administrator shall conduct a technical review of the conditions on the property and respond to the appeal in writing within thirty (30) days.

C. In response to an appeal, the City Administrator may adjust the stormwater service charge applicable to a property in conformance with the general purpose and intent of this chapter.

D. A decision of the City Administrator which is adverse to an appellant may be further appealed to the City Council within thirty (30) days of receipt of notice of the adverse decision. Notice of the appeal shall be served on the City Council by the appellant, stating the grounds for the appeal. The City Council shall schedule a public hearing within thirty (30) days. All decisions of the City Council shall be served on the appellant by registered mail, sent to the billing address of the appellant.

E. All decisions of the City Council shall be final.

§204A.9 Exemption From Fees; Special Conditions. In special conditions, the City Administrator of the City of Waukee may, upon a written request for an exemption of fees filed with the Utility Billing Department, grant fee payment and collection variances after determining that granting the variance would be in the City's best interest, will improve efficiency, safety and is practical. Upon granting of any variance, the City Administrator shall file notice with the Cit Council giving reason(s) for the variance.

§204A.10 Billing for Stormwater Service. Billing and payment for stormwater services shall be in accordance with the following:

A. Bills Issued. The Utility Billing Department shall prepare and issue bills for stormwater service on or before the last day of the month following each monthly billing period which shall be billed on the Customers combined service account.

B. Bills Payable. Bills for stormwater service shall be due and payable at Waukee City Hall by the twentieth (20^{th}) of the month following the end of each monthly billing period.

C. Late Payment Penalty. Bills not paid when due shall be considered delinquent. A late payment penalty of one and one-half percent (1 ½ %) of the amount due shall be added to each delinquent bill.

D. Returned Checks. A fee, as set forth in the fee schedule established by the City Council of the City of Waukee, shall be charged for all checks not honored by the bank.

§204A.11 Lien for Non-Payment. The owner of the premises served and any lessee or tenant thereof shall be jointly and severally liable for stormwater service charges to the premises. Stormwater service charges remaining unpaid and delinquent shall constitute a lien upon the premises served and may be certified by the Clerk to the County Treasurer for collection in the same manner as property taxes.

§204A.12 Lien Notice. A lien for delinquent stormwater service charges shall not be certified to the County Treasurer unless prior written notice of intent to certify a lien is given to the customer. If the customer is a tenant and if the owner or landlord of the property has made a written request for notice, the notice shall also be given to the owner or landlord. The notice shall be sent to the appropriate person by ordinary mail not less than thirty (30) days prior to certification of the lien to the County Treasurer.

§204A.13 Discontinuance of Service. After giving reasonable notice, the Director of Public Works may discontinue water service to any customer who has failed to pay the amounts due and owing under this chapter and who has not contested the payment therefore in good faith.

§204A.14 Annual Revision of Rates. The City will review the stormwater service charges at least yearly and revise the stormwater service charges as necessary to ensure that such charges as herein established and specified generate adequate revenues to pay the costs of maintenance and operation (including replacement and debt service) of a stormwater management system and facilities and that the stormwater service charges continue to provide for the proportional distribution of maintenance and operation costs (including replacement costs and debt service) for a stormwater management system and facilities among the users and user classes. The liability of a stormwater service user to pay for charges as provided in this chapter shall not be contingent, however, upon any such review or revision.

June 5, 2006 – Ordinance #2582

CHAPTER 102
STORM WATER UTILITY

102.01 Purpose
102.02 Definitions
102.03 Powers of Utility
102.04 Organization
102.05 Establishment of Equivalent Residential Unit (ERU)
102.06 Storm Water Utility Charge
102.07 ERU Rate
102.08 Determination of Storm Water Utility Charge
102.09 Appeals
102.10 Billing Procedures

102.01 PURPOSE.

It is determined and declared to be necessary and conducive to the protection of the public health, welfare, safety, and convenience of the City and its residents that charges be levied and collected from the owners or occupants of all lots, parcels of real estate, and buildings that discharge storm water or surface or subsurface waters, directly or indirectly, to the City storm water drainage system, and that the proceeds of such charges so derived be used for the purposes of operation, maintenance, repair, replacement and debt service for construction of the storm water drainage and flood protection improvements comprising the storm water management utility.

102.02 DEFINITIONS.

1. "Contributor" or "user" means any person owning, operating or otherwise responsible for property within the City, which directly or indirectly discharges storm water or subsurface waters to any portion of the storm water management system, including direct or indirect discharges to the City's storm water drainage system, or which is directly or indirectly protected by the City's flood protection system or storm water drainage system. The term "contributor" or "user" means any person responsible for the direct or indirect discharge of storm water or surface or subsurface waters to the City's storm water drainage system.

2. "Developed property" means real property upon which a structure or impervious surface has been placed or constructed, thus increasing the amount of rainwater or surface water runoff.

3. "Director" means the City Engineer or his/her designee.

4. "Dwelling unit" means a singular unit or apartment providing complete, independent living facilities for one or more persons including permanent provisions for living, sleeping, eating, cooking and sanitation.

5. "Equivalent residential unit" (ERU) means the average impervious area of residential developed property per dwelling unit located within the City, as periodically determined and established as provided in this chapter.

6. "ERU rate" means the dollar value periodically determined and assigned to each ERU as a charge for storm water management services, and expressed as $x.xx per ERU.

7. "Exempt property" means public streets, alleys and sidewalks, cemeteries, and public parks, including publicly owned property used for recreation.

8. "Impervious area" means the number of square feet of hard-surfaced areas which either prevent or retard the entry of water into the soil mantle, as it entered under natural conditions as undeveloped property, and/or cause water to run off the surface in greater quantities or at an increased rate of flow from that present under natural conditions as undeveloped property, including but not limited to roofs, roof extensions, patios, porches, driveways, pavement and athletic courts.

9. "Multi-family residential property" means a residential structure designed with two or more dwelling units to accommodate two or more families or groups of individuals living separately and not sharing the same living space.

10. "Nonresidential property" means any property developed for commercial, industrial, governmental or institutional use, including churches, hospitals, parking lots and multiuse properties incorporating residential uses.

11. "Single-family residential property" means a detached residential structure designed as a single dwelling unit to accommodate one family or group of individuals living together and sharing the same living space, but excluding multi-use properties which include single-family residential uses.

12. "Storm Water Drainage System" means the system of publicly or privately owned or operated rivers, creeks, ditches, drainage channels, pipes, basins, street gutters, and lakes within the City through which or into which storm water runoff, surface water or subsurface water is conveyed or deposited.

13. "Storm water management utility" means the enterprise fund utility created by this chapter to operate, maintain and improve the system and for such other purposes as stated in this chapter.

14. "Storm water management utility system" means the existing storm water management facilities, storm water drainage system, and flood protection system of the City and all improvements thereto which by this division are constituted as the property and responsibility of this utility, to be operated as an enterprise fund to, among other things, conserve water, control discharges and flows necessitated by rainfall events; and incorporate methods to collect, store, absorb, inhibit, treat, use or reuse water to prevent or reduce flooding, over-drainage, environmental degradation and water pollution or otherwise affect the quality or quantity of discharge from such system.

15. "Undeveloped property" means any real property that has no impervious area.

102.03 POWERS OF UTILITY.

The storm water management utility shall have the following powers, duties and responsibilities:

1. Prepare ordinances as needed to implement this division and forward the ordinances to the Council for consideration and adoption, and adopt such regulations and procedures as are required to implement this chapter and carry out its duties and responsibilities.

2. Administer the design, construction, maintenance and operation of the utility system, including capital improvements designated in the comprehensive drainage plan.

3. Administer and enforce this chapter and all ordinances, regulations, and procedures relating to the

design, construction, maintenance, operation and alteration of the utility system, including but not limited to the quantity, quality and/or velocity or storm water conveyed thereby.

4. Inspect private systems as necessary to determine the compliance of such systems with this chapters and any ordinances or regulations adopted pursuant to this chapter.

5. Prepare and revise a comprehensive drainage and flood protection plan for periodic review and adoption by the Council.

6. Review plans, approve or deny, inspect and accept extensions to the storm water drainage system.

7. Establish and enforce regulations to protect and maintain water quality within the system in compliance with water quality standards established by State and/or Federal agencies as adopted or amended.

8. Annually analyze the cost of services and benefits provided, and the system and structure of fees, charges, fines and other revenues of the utility, and make recommendations regarding adjustment to such fees, charges, fines and other revenues.

9. Prepare an annual operating budget for the utility and make recommendations regarding the financing of the cost of extending and replacing the system.

102.04 ORGANIZATION.

The Council shall be the governing body of the storm water management utility. The storm water management utility shall be under the direction, management, and control of the City Engineer, who shall function as its director. In that capacity, the director shall supervise the day-to-day operation of the storm water management utility, shall enforce this chapter and the provisions of all ordinances and regulations adopted pursuant to this chapter, and shall carry out the policy directives of the Council acting in its role as governing body of the storm water management utility.

102.05 ESTABLISHMENT OF EQUIVALENT RESIDENTIAL UNIT (ERU).

For the purposes of this chapter, the ERU shall be equivalent to 3,440 square feet of impervious area.

102.06 STORM WATER UTILITY CHARGE.

Every user owning or occupying property that is not exempt property in the City of Coralville shall pay to the City a storm water utility charge as determined in this chapter. In the event that the owner and the occupant of a particular property are not the same, the liability for payment of the storm water utility charge attributable to the property shall be joint and several as to the owner and occupant.

102.07 ERU RATE.

The ERU rate to be applied to residential and nonresidential properties shall be $2.00.

102.08 DETERMINATION OF STORM WATER UTILITY CHARGE.

1. Single-Family Residential Property.

A. The storm water utility charge for single-family residential properties shall be one hundred percent (100%) of the ERU rate per month.

B. The storm water utility charge shall commence upon the earlier of the following:

(1) The issuance of a certificate of occupancy.

(2) Ninety (90) days after construction is halted, provided construction is at least 50% complete.

(3) Ninety (90) days after construction is completed, even if a certificate of occupancy has not been issued for the property.

2. Multi-Family Residential Property.

A. The storm water utility charge for multi-family residential properties shall be one hundred percent (100%) of the ERU rate multiplied by the number of dwelling units existing on the property.

B. The storm water utility charge shall commence upon the earlier of the following:

(1) The issuance of a certificate of occupancy.

(2) Ninety (90) days after construction is halted, provided construction is at least 50% complete.

(3) Ninety (90) days after construction is completed, even if a certificate of occupancy has not been issued for the property.

3. Nonresidential Property.

A. The storm water utility charge for nonresidential properties shall be a base rate of one ERU rate plus seventy-five cents ($0.75) multiplied by the numerical factor obtained by dividing the total impervious area of the particular property by the number of square feet in one Equivalent Residential Unit.

B. The storm water utility charge shall commence upon the earlier of the following:

(1) The issuance of a certificate of occupancy.

(2) Ninety (90) days after construction is halted, provided construction is at least 50% complete.

(3) Ninety (90) days after construction is completed, even if a certificate of occupancy has not been issued for the property.

102.09 APPEALS.

1. An owner or occupant of a multi-family residential property aggrieved by the initial or any subsequent calculation of the number of dwelling units upon or in such property, calculation of the storm water utility charge, or allocation of such charge among the occupants, may appeal such calculations and allocation to the director. Upon such appeal, the storm water utility charge for such property may be recalculated utilizing information supplied by the appealing owner or occupant, provided such information is verified as correct by the director.

2. An owner or occupant of nonresidential property aggrieved by the initial or any subsequent determination of the total impervious area of such property, calculation of storm water utility charge for such property, or allocation of such charge among the occupants, may appeal such calculations and allocation to the director. Upon such appeal, the storm water utility charge for such property may be recalculated utilizing information supplied by the appealing owner or occupant, provided such information is verified by the director.

3. Any adjustment of the storm water utility charge resulting from such appeal shall be retroactive to the date the appeal was filed.

4. Appeals by the owners or occupants of property subject to the storm water utility charges shall include a statement of the number of dwelling units, total property area, and/or total impervious area, as appropriate for the particular grounds for appeal. Such information may be shown on the storm water utility reporting forms or on appeal forms, and may be accompanied by plats, county assessor's records, or survey data. The director may request additional information from the appealing party. Based upon the information provided by the utility and appealing party, the director shall make a final calculation of the storm water utility charge. The director shall notify the appealing party, in writing, of the director's decision within ninety (90) days after receipt of the appeal. If still aggrieved, a party may request, in writing, a review by the City Administrator of the director's decision. Such request must be filed with the City Clerk within thirty (30) days after the director's decision, shall cite the specific error by the director, and shall include the calculation of the storm water utility charge which the appealing party believes to be correct. The City Administrator shall review the record presented and render a written decision within thirty (30) days after receipt of the request for review. The City Administrator may request additional information from the director or the appealing party. If still aggrieved, a party may request review of the City Administrator's decision by the City Council in the same manner as above provided for review by the City Administrator. Any property owner aggrieved by the decision of the City Council may appeal to the County district court by action filed within thirty (30) days of the mailing of the ruling of the City Council to the address of the property owner, occupant or occupant organization as shown on the review request or on the records of the City with respect to the appeal. The filing of an appeal shall not excuse the payment of the storm water utility charge when due. However, the City shall refund any portion of the charge paid subsequent to the filing of an appeal which is adjudged to be excessive, with interest at the rate provided by law.

102.10 BILLING PROCEDURES.

The charges established under this chapter shall be collected as outlined in Chapter 107 of this Code of Ordinances.

STORMWATER UTILITY MODEL ORDINANCE

ORDINANCE NO._____

ORDINANCE AMENDING THE CODE OF ORDINANCES, CITY OF _____ _____, BY ADDING CHAPTER _____, "STORMWATER MANAGEMENT AND DRAINAGE SYSTEMS UTILIITY"

Section 1. THE CODE OF ORDINANCES, CITY OF _____ _____, is hereby amended to add CHAPTER _____"STORMWATER MANAGEMENT AND DRAINAGE SYSTEMS UTILIITY," in the form attached hereto.

Section 2. Repealer Clause. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

Section 3. Severability Clause. If any section, provision or part of this ordinance shall be adjudged invalid or unconstitutional, such adjudication shall not affect the validity of the ordinance as a whole or any section, provision or part thereof not adjudged invalid or unconstitutional.

Section 4. Effective Date. This ordinance shall be effective from and after the final passage, approval and publication as provided by law.

PASSED AND APPROVED this _____day of _____, 20_____.

(SEAL)

_____
Mayor

ATTEST:

_____
City Clerk

APPROVED AS TO FORM:

_____
City Attorney[1]

[1] This model ordinance was developed by Iowa Association of Municipal Utilities staff and is furnished as a drafting guide for attorneys representing governmental subdivisions in Iowa. CAVEAT: THIS MODEL ORDINANCE SHOULD NOT BE ADOPTED WITHOUT CONFIRMING INDEPENDENT LEGAL RESEARCH BY AN ATTORNEY LICENSED TO PRACTICE LAW IN IOWA. LOCAL CIRCUMSTANCES WILL VARY SIGNIFICANTLY FROM JURISDICTION TO JURISDICTION. CONSIDERATION OF SUCH AN ORDINANCE CALLS FOR CAREFUL ANALYSIS AND DETERMINATION OF A NUMBER OF CRITICAL POLICY ISSUES BY THE GOVERNING BODY OF THE JURISDICTION.

I, _____, City Clerk of the City of _____ _____, Iowa, do hereby certify that the foregoing ORDINANCE was passed and approved by the City Council of the City of _____Iowa, on the _____day of _____, 20_____, and was published in the _____ _____, a newspaper of general circulation in the said City of _____ _____, on the _____day of _____, 20_____.

Dated this _____day of _____, 20_____.

Chapter [ ] STORMWATER UTILITY

Sections:

1.1 Purpose and objective.

1.2 Creation of a stormwater management and drainage systems utility.

1.3 Definitions.

1.4 Funding the stormwater management and drainage systems utility.

1.5 Stormwater management and drainage systems utility budget.

1.6 Rate structure and stormwater service charge.

1.7 Powers of director of public works.

1.8 Powers and duties of the City.

1.9 Scope of responsibility for the drainage systems.

1.10 Requirements for on-site stormwater systems, enforcement and inspections.

1.11 Right to appeal.

1.12 Billing and collections.

1.13 Adjustments to stormwater service charges.

1.14 Exemptions and credits applicable to stormwater service charges.

1.1 Purpose and Objective.

(a) The purpose of this Article is to establish a policy and procedure for managing and controlling the quantity and quality of stormwater runoff, within the city limits of [INSERT CITY], Iowa. The management shall include the establishment of a stormwater utility to provide revenues for whatever aspects of this requirement are deemed appropriate by the City.

(b) The city finds, determines and declares that the stormwater drainage system provides benefits and services to all property within the city limits. Such benefits include, but are not limited to: the provision of adequate systems for collection, conveyance, detention, treatment and release of stormwater for quality and quantity management that minimize impacts on receiving waters.

(c) In order to manage additions and improvements to the city stormwater systems, the City must have adequate and stable funding for its stormwater management program operating and capital investment needs.

1.2 Creation of a Stormwater Management and Drainage Systems Utility.

(a) The function of the Stormwater Management and Drainage Systems Utility [hereinafter referred to as "stormwater utility"] within the [LIST DEPARTMENT] is to provide for the safe and efficient capture of stormwater runoff, mitigate the damaging effects of stormwater runoff, correction of stormwater problems, to fund activities of stormwater management, and include design, planning, regulations, education, coordination, construction, operations, maintenance, inspection and enforcement activities.

(b) There is hereby established a stormwater utility within the City of [INSERT CITY], Iowa which shall be responsible for creating revenue for stormwater management throughout the City's corporate limits, and shall provide for the management, protection, control, regulation, use, and enhancement of stormwater systems and facilities. Such utility shall be under the operational direction of the [INSERT UTILITY DIRECTOR]. The corporate limits of the City, as increased from time to time, shall constitute the boundaries of the stormwater utility district.

(c) The City shall establish a Stormwater Utility Fund in the City budget and accounting system, separate and apart from its General Fund, for the purpose of dedicating and protecting all funding applicable to the purposes and responsibilities of the utility.

1.3 Definitions.

"City" City of [INSERT CITY]

"Adjustment" means a modification in a nonresidential customer's stormwater service fee for certain activities that impact stormwater runoff or impact the City's costs of providing stormwater management.

"Director" means the director of the Stormwater Utility.

"Detached Dwelling Unit" shall mean developed land containing one structure which is not attached to another dwelling and which contains one or more bedrooms, with a bathroom and kitchen facilities, designed for occupancy by one family. Detached dwelling units may include houses, manufactured homes, and mobile homes located on one or more individual lots or parcels of land.

"Equivalent Residential Unit" (ERU) shall mean the average impervious area of a detached dwelling unit property within the City, and shall be used as the basis for determining stormwater service charges to detached dwelling unit properties. [INSERT SQUARE FEET OF IMPERVIOUS AREA] shall be equivalent to 1 ERU. (*This is usually obtained by averaging single family resident's impervious area using such tools as GIS maps and associated software.)*

"ERU Rate" The dollar value periodically determined and assigned to each ERU as a charge for stormwater management services, expressed as [INSERT DOLLAR AMOUNT] per ERU.

"Impervious Area" The number of square feet of hard-surfaced areas which either prevent or resist the entry of water into soil surface, as it entered under natural conditions as undeveloped property, and/or

cause water to run off the surface in greater quantities or at an increased rate of flow from that present under natural conditions as undeveloped property. This includes but is not limited to roofs, roof extensions, patios, porches, driveways, sidewalks, pavement, athletic courts, and semi-impervious surfaces such as gravel which are used as driveways or parking lots.

"Occupant" shall mean the person residing or doing business on the property. In a family or household situation, the person responsible for the obligation imposed shall be the adult head of the household. In a shared dwelling or office situation, the adult legally responsible for the management or condition of the property shall be responsible.

"Owner" shall mean the legal owner(s) of record as shown on the tax rolls of [INSERT CITY], except where there is a recorded land sale contract, the purchaser thereunder shall be deemed the owner.

"Stormwater" means stormwater runoff, snowmelt runoff, and surface runoff and drainage.

"Storm Sewer" means a sewer, which carries stormwater, surface runoff, street wash waters, and drainage, but which excludes sanitary sewage and industrial wastes, other than permitted discharges.

"Service Charges" shall mean the periodic rate, fee or charge applicable to a parcel of developed land, which charge shall be reflective of the service provided by the [INSERT CITY] stormwater utility. Service charges are based on measurable parameters which influence the stormwater utility's cost of providing services and facilities, with the most important factor being the amount of impervious area on each parcel of developed land.

"Stormwater Drainage System" means all man-made facilities, structures, and natural watercourses owned by the city of [INSERT CITY], used for collection and conducting stormwater to, through, and from drainage areas to the points of final outlet including, but not limited to, any and all of the following: conduits and appurtenant features, canals, creeks, catch basins, ditches, streams, gullies, ravines, flumes, culverts, siphons, streets, curbs, gutters, dams, floodwalls, levees, and pumping stations.

"Stormwater Management" means the tasks required to control stormwater runoff using stormwater management systems, to protect the health, safety, and welfare of the public, and comply with relevant state and federal regulations.

"Stormwater Management Systems" address the issues of drainage management (flooding) and environmental quality (pollution, erosion, and sedimentation) of receiving rivers, streams, creeks, lakes, ponds, and reservoirs through improvements, maintenance, regulation and funding of plants, works, instrumentalities and properties used or useful in the collection, retention, detention, and treatment of stormwater or surface water drainage.

"Stormwater Utility" means the utility established under this Section for the purpose of managing stormwater and imposing charges for the recovery of costs connected with such stormwater management.

"Surface Water" means water bodies and any water temporarily residing on the surface of the ground including lakes, reservoirs, rivers, ponds, streams, puddles, channelized flow and runoff.

"Undeveloped Property" describes land in its unaltered natural state or which has been modified to such minimal degree as to have a hydrologic response comparable to land in an unaltered natural state shall be deemed undeveloped. Undeveloped land shall have minimal concrete pavement, asphalt, or compacted gravel surfaces or structures which create an impervious surface.

"Water Course" A natural overland route through which water passes, including drainage courses, streams, creeks, and rivers.

Additional Definitions

These definitions are not found in this model ordinance but could be added to local ordinances when needed to clarify the meaning of specific words.

"Developed Agricultural Properties" means a lot or parcel of real estate used as a "farm," which may contain one or greater dwelling units and/or other building structures but does not include undeveloped properties.

"Developed Property" means property altered from its natural state by the construction or installation of a structure or more than [INSERT AMOUNT OF IMPERVIOUS SURFACE] feet of impervious surface thus increasing the amount of rainwater or surface water runoff.

"Exempt Property" includes public streets, alleys and sidewalks; all undeveloped properties.

"Ground Water" means sub-surface water or water stored in pores, cracks, and crevices in the ground below the water table.

"Nonresidential properties" means all properties not encompassed by the definition of residential shall be defined as nonresidential. Nonresidential properties shall include: apartment building properties; condominiums properties; mobile home parks; commercial property; industrial property; institutional property; governmental property; churches; hospitals; schools; transient rentals; parking lots; federal, state and local properties; and any other property not mentioned in the lists of properties.

"Residential Property" means all single-family and duplex properties within the city of [INSERT CITY].

"Stormwater Facilities" means various stormwater and drainage works that may include inlets, pipes, pumping stations, conduits, manholes, energy dissipation structures, stream channels, outlets, retention/detention basins, infiltration practices and other structural components.

"User" means the owner and/or occupant of any developed property within the limits of [INSERT CITY], and shall mean any person who uses property which maintains connection to, discharges to, or otherwise receives services from the City for stormwater management. The occupant of any habitable property is deemed the user. If the property is not occupied, then the owner shall be deemed the user.

1.4 Stormwater Utility Fund.

(a) Funding for the stormwater utility's activities may include, but are not limited to: stormwater service charges; stormwater permits and inspection fees; other funds or income obtained from federal, state, local, and private grants, or loans.

(b) All service charges and all sources of revenue generated by or on behalf of the stormwater utility shall be deposited in a stormwater utility fund and used exclusively for management of the stormwater utility.

1.5 Stormwater Utility Budget.

The City shall adopt an operating and capital budget for the stormwater utility each fiscal year. The budget shall set forth revenues for such fiscal year and estimated expenditures for operations, maintenance, improvements, replacement and debt service.

1.6 Rate Structure and Stormwater Service Charge.

Any property, lot, parcel of land, building or premises that is tributary directly or indirectly to the stormwater system of the city, shall be subject to a charge based upon the quantity of impervious area situated thereon. This charge is not related to the water and/or sewer service and does not rely on occupancy of the premises to be in effect. All properties having impervious area within the city of [INSERT CITY] will be assigned an equivalent residential unit (ERU) or a multiple thereof, with all properties having any impervious area receiving at least one ERU, which shall be considered the base rate.

Establishment of Equivalent Residential Unit (ERU) rate and stormwater utility charge[2]:

1. For the purpose of this Ordinance, an ERU is equivalent to [INSERT SQUARE FEET] of impervious area.

2. Determination of Stormwater Utility Fee.

    a. The stormwater utility fee for single-family residential shall be 100% of the ERU rate.

        The rate shall be based on the following schedule:

        Fiscal year 2010-2011= $/month
        Fiscal year 2011-2012= $/month
        Fiscal year 2012-2013= $/month
        Fiscal year 2013-2014= $/month

        The monthly rate for each fiscal year thereafter shall be determined by resolution of the city council prior to July 1st of each year.

[2] The rate information provided is to be used as general guidance. Each community must evaluate their billing infrastructure and program needs and establish rates accordingly.

b. The stormwater utility fee for multi-family residential shall be:

Fiscal year 2010-2011= $/ERU/month
Fiscal year 2011-2012= $/ERU/month
Fiscal year 2012-2013= $/ERU/month
Fiscal year 2013-2014= $/ERU/month

The monthly rate based for each fiscal year thereafter shall be determined by resolution of the city council prior to July 1st of each year.

The number of ERUs on each property shall be determined by the stormwater utility.

OR, (INSERT %) of the ERU rate multiplied by the number of individual dwelling units on the property.

c. The stormwater utility fee for commercial and industrial shall be:

Fiscal year 2010-2011= $/ERU/month
Fiscal year 2011-2012= $/ERU/month
Fiscal year 2012-2013= $/ERU/month
Fiscal year 2013-2014= $/ERU/month

The monthly rate based for each fiscal year thereafter shall be determined by resolution of the city council prior to July 1st of each year.

The number of ERUs on each property shall be determined by the stormwater utility.

OR, A base rate of one ERU plus (INSERT amount) multiplied by the numerical factor obtained by dividing the total impervious area of the property by the number of square feet in one ERU.

1.7 Powers of Director of the Stormwater Utility.

Stormwater service charges incurred pursuant to this ordinance may be collected by the stormwater utility director or designee who is also responsible for the regulation, collection, rebating and refunding of such stormwater charges.

1.8 Powers and Duties of the City.

The City shall have the following powers, duties, and responsibilities with respect to the stormwater utility:

(a) Administer the design, construction, maintenance and operation of the utility system, including capital improvements designated in the comprehensive drainage plan.

(b) Acquire, construct, lease, own, operate, maintain, extend, expand, replace, clean, dredge, repair, conduct, manage, and finance such facilities, operations, and activities, as are deemed by the City to be proper and reasonably necessary for a system of storm and surface water management. These facilities

may include, but are not limited to, surface and underground drainage facilities, storm sewers, watercourses, ponds, ditches, and such other facilities relating to collection, runoff, treatment and retention as will support a stormwater management system.

(c) The City shall separately account for the stormwater utility finances. The stormwater utility shall prepare an annual budget, which is to include all operation and maintenance costs and costs of borrowing. The budget is subject to approval by the City Council. Any excess of revenues over expenditures in a year shall be retained in a segregated fund, which shall be used for stormwater utility expenses in subsequent years. Stormwater utility fees collected shall be deposited in the stormwater utility fund and shall be used for no other purpose.

1.9 Responsibility for the Stormwater Management and Drainage System.

(a) The City stormwater management and drainage system consists of all rivers, streams, creeks, branches, lakes, reservoirs, ponds, drainage ways, channels, ditches, swales, storm sewers, culverts, inlets, catch basins, pipes, head walls and other structures, natural or man-made, within the political boundaries of the City of [INSERT CITY] which control and/or convey stormwater through which the City intentionally diverts surface waters from its public streets and properties. The City owns or has legal access for purposes of operation, maintenance and improvements to those segments of this system which

(1) are located within public streets, rights-of-way, and easements;

(2) are subject to easements of rights-of-entry, rights-of-access, rights-of-use, or other permanent provisions for adequate access for operation, maintenance, and/or improvement of systems and facilities; or

(3) are located on public lands to which the City has adequate access for operation, maintenance, and/or improvement of systems and facilities. Operation and maintenance of stormwater systems and facilities which are located on private property or public property not owned by the City of [INSERT CITY] and for which there has been no public dedication of such systems and facilities for operation, maintenance, and/or improvement of the systems and facilities shall be and remain the legal responsibility of the property owner.

(b) It is the intent of this section to protect the public health, safety and general welfare of all properties and persons in general, but not to create any special duty or relationship with an individual person or to any specified property within or without the boundaries of the City of [INSERT CITY]. The City of [INSERT CITY] expressly reserves the right to assert all available immunities and defenses in any action seeking to impose monetary damages upon the City, its officers, employees and agents arising out of any alleged failure or breach of duty or relationship as may now exist or hereafter be created.

1.10 Requirements for On-site Stormwater Systems, Enforcement and Inspections.

(a) All property owners and developers of developed real property within the City of [INSERT CITY] shall provide, manage, maintain, and operate on-site stormwater systems sufficient to collect, convey, detain, and discharge stormwater in a safe manner consistent with all City, State, and Federal laws and regulations.

(b) Pursuant Iowa Code Section 364.12(3) or successor section of the State Code, any failure to meet this obligation may constitute a nuisance and may be subject to an abatement action filed by the City. In the event a nuisance is found to exist, which the owner fails to properly abate within such reasonable time as allowed by the City, the City may enter upon the property and cause such work as is reasonably necessary to be performed, with the actual cost thereof assessed against the owner in the same manner as a tax levied against the property. The City shall have the right, pursuant to the authority of this section, for its designated officers and employees to enter upon private and pubic property owned by entities other than the City, upon reasonable notice to the owner thereof, to inspect the property and conduct surveys and engineering tests thereon in order to assure compliance.

1.11 Right to Appeal.

Any customer who believes the provisions of this chapter have been applied in error may appeal in the following manner:

(a) An appeal must be filed in writing with the City of [INSERT CITY] City Manager. In the case of service charge appeals, the appeal shall include a survey prepared by a registered Iowa land surveyor or professional engineer containing information on the total property area, the impervious surface area and any other features or conditions which influence the hydrologic response of the property to rainfall events.

(b) Using the information provided by the appellant, the City Manager shall conduct a technical review of the conditions on the property and respond to the appeal in writing within thirty (30) days.

(c) In response to an appeal, the City Manager may adjust the stormwater service charge applicable to a property in conformance with the general purpose and intent of this chapter.

(d) A decision of the City Manager which is adverse to an appellant may be further appealed to the City Council within thirty (30) days of receipt of notice of the adverse decision. Notice of the appeal shall be served on the City Council by the appellant, stating the grounds for the appeal. The City Council shall schedule a public hearing within thirty (30) days. All decisions of the City Council shall be served on the appellant by registered mail, sent to the billing address of the appellant.

(e) All decisions of the City Council shall be final.

1.12 Billing and Collection.

(a) A storm water service charge bill may be sent through the United States mail or by alternative means, notifying the customer of the amount of the bill, the date the payment is due, and the date when past due. Failure to receive a bill is not justification for non-payment. Regardless of the party to whom the bill is initially directed, liability for payment of the stormwater management charge attributable to that property shall be joint and several as to the owner and occupant.

(b) All comprehensive stormwater service charges are due and payable thirty days after the date of billing.

(c) A penalty of five percent shall be added to a comprehensive stormwater service charge when the charge is not paid in said thirty days.

OR A one and one-half percent (1.5%) per month late charge shall be billed based on the unpaid balance of any storm water utility service charge that becomes delinquent.

OR Each stormwater service charge rendered under or pursuant to this chapter is hereby made a lien upon the corresponding lot, parcel of land, building or premises that are tributary directly or indirectly to the stormwater system of the city, and, if the same is not paid within sixty days of invoice date, it shall be certified to the county treasurer, who shall place a lien on said property as allowed by law and be collected in the same manner as property taxes.

(d) Certification. The director shall certify to the [INSERT CITY FINANCE OFFICER] any comprehensive stormwater service charge, which is owed after a sixty-day payment period. All certified service charges constitute a lien upon the premises served by the stormwater system for which the service charges were made and shall be collected in the same manner as property taxes. Failure to send or receive a bill for comprehensive stormwater service charge is not a defense to the collection of the service charges.

(e) Suits for collection shall be commenced by the City in the Iowa District Court for [INSERT COUNTY] County. No lien shall be imposed for delinquent collections unless a judgment is first obtained from a court of competent jurisdiction. The City may employ any lawful means to collect funds owed, and is not restricted to filing a lawsuit.

(f) The stormwater utility service charge may be billed on a common statement and collected along with other city utility services, usually on a quarterly basis.

1.13 Adjustments to Stormwater Service Charges.

Increase adjustments (debit) can be made to nonresidential service charges by property owners adding additional impervious area such as rooftops, parking lots, driveways and walkways.

1.14 Exemptions and Credits Applicable to Stormwater Service Charges.

All public or private property shall be subject to stormwater utility service charges except as provided in this Ordinance below. A stormwater utility service charge formula is available in the office of the stormwater utility. The following areas are exempt from stormwater utility service charges:

1. Undeveloped property as defined in this Ordinance.

2. Streets, alley ways, and highways in the public and private domain are exempt from utility service charges or connection fees.

3. Railroad rights-of-way (tracks) shall be exempt from stormwater service charges. However, railroad stations, maintenance buildings, or other developed land used for railroad purposes shall not be exempt from storm water service charges.

ENORMOUS VICTORY!

A monumental step in the right direction to repealing the illegal Rain Tax

"We are hopeful the commissioners got the message loud and clear"

We did not want this burdensome tax, nor did we get a chance to vote on it
Now, the citizen Task Force has spoken, and they have told the commissioners
"stop this utility and return the money"

Denver Post Article I November 26, 2013
By Yesenia Robles
The Denver Post

Panel pans stormwater fee

TASK FORCE ALSO URGES ADAMS COUNTY TO REFUND $2.1M

After six months of debate, a citizens task force urged Adams County commissioners

to discontinue a controversial stormwater fee and pay back the $2.1 million in fees already collected.

The recommendations were presented by staff to the commissioners during Monday's public hearing — almost two months past the Oct. 1 deadline commissioners had first set for the guidelines.

It's unclear when the board will take action.

"We do not know what the next steps will be nor what will happen with the program in the future," said Andrea Berg, the county's stormwater program manager.

The task force, which has about 20 members, has been meeting on the matter since May and has been divided. Its five recommendations were drafted Sept. 25 and presented Monday.

Some task force members have criticized the stormwater fee over billing errors, called it a tax and asked commissioners to take the issue to voters instead.

One recommendation — put there by mistake, according to member Thom Stanfield — contradicts the other guidelines by stating the stormwater utility should continue in a minimized capacity.

Commissioner Eva Henry said she hopes to implement some recommendations next month.

The fee, which is based on estimates of how much rain runs off of a property, started Jan. 1 for residents and businesses in unincorporated Adams. It was estimated at an average of $62.64 per year for a single-family home, but some reported bills as high as $900.

Funds collected were meant to pay for water quality and flood- mitigation systems, but projects are now on hold. The fee was capped in April when the task force was created after numerous complaints and threats of litigation. A lawsuit was eventually filed in August and is pending.

Adams County Commissioners Are you listening ?

What's Next:

Commissioner Eva Henry mentions in this article she "hopes to implement some recommendations next month".
Given the fact she is well aware the citizens are opposed to this burdensome tax increase, the county has over $150 million in unrestricted funds, the county lied to the public in getting us to believe this utility was required by the EPA, and now the Task Force has given recommendations to eliminate the utility and return the money, what is possibly left to decide and why on earth would this take a month?

We would like to reiterate SSUA is not against the county spending money on storm drainage maintenance and infrastructure. However, our position will remain as it always has, we will not allow our local government to operate a 'fee based program' where the taxpayers have no choice, no say, no control and NO VOTE!

We will continue to move forward with our lawsuit and remain extremely optimistic a judge will see this for what it is, a clear violation of our constitutional rights.

Thank you!

A big thanks to all of you who have sent emails, called, written letters, etc. giving us words of encouragement. Many of us have spent an extreme amount of time and money fighting this issue and we would like all of you to know, we are all in this together and we will not back down until we are successful.

Please Donate To The Lawsuit!

Please Help with Funding the Lawsuit:

We would like to thank each and every one of you for your contribution toward the lawsuit.

Donations can be made directly through our website at www.StopRainTax.com or checks can be mailed to address listed on **the** website.

IT'S OUR COUNTY! IT'S OUR FUTURE!
IT'S OUR TIME TO FIGHT BACK!
