1. The Fire Department would like the council to consider purchasing a new fire truck. They have created specifications for the type of truck that they believe would be most beneficial to the department. There are three companies that have provided information on the trucks that they are able to build. The department also needs some additional equipment along with the fire truck. They would like some new SCBA units and radio equipment. There is also a need for some minor equipment for a fire truck. Council member Aldmeyer stated that he would prefer the department think about the big picture. Now would be the time to add-on to the building to provide sleeping quarters and the additional space needed. The department will work with Ron Rothmeyer to put together specifications for a building addition. The clerk will check into the timing of an election and the cost of a bond issue.

This special city council workshop was adjourned at 6:00 PM.
